**0500 FIRST LANGUAGE ENGLISH**

**0500/02**

Paper 2 (Reading Passage – Extended),  
maximum raw mark 50

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2008 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

**Fixing LIBOR** Great Britain: Parliament: House of Commons: Treasury Committee,2012-08-20 This report follows the Committee's inquiry into the Final Notice issued by the Financial Services Authority with respect to Barclays on 27 June 2012 The Committee has called for action in a number of areas including higher fines for firms that fail to co operate with regulators the need to examine gaps in the criminal law and a much stronger governance framework at the Bank of England The manipulations were made possible by a prolonged period of extremely weak internal compliance and board governance at Barclays as well as a failure of regulatory supervision Nor was it spotted either by the FSA or the Bank of England at the time The evidence that Mr Tucker Mr Diamond and Mr del Missier separately gave about this manipulation describes a combination of circumstances which would excuse all the participants from the charge of deliberate wrongdoing If they are all to be believed an extraordinary but conceivably plausible series of miscommunications occurred It is also unlikely that Barclays was the only bank attempting the manipulations In explaining what was wrong with the general culture at Barclays the FSA showed some welcome evidence of a new judgement led regulatory approach Regulators should not decide the composition of boards in response to headlines and many will wonder why they did not intervene earlier to remove Mr Diamond The Bank of England should have had adequate procedures in place for at least the making of a File note of conversations such as that between Mr Tucker and Mr Diamond The Wheatley review should now look at the role of the BBA in LIBOR setting at that time in detail and publish its findings The Parliamentary Commission on Banking Standards examination of the corporate governance of systemically important financial institutions should consider how to mitigate the risk that the leadership style of a chief executive may permit a lack of effective challenge or to the firm committing strategic mistakes
