House of Commons - Scottish Affairs Committee: The Impact of the Bedroom Tax in Scotland: Interim Report - HC 288 Great Britain. Parliament. House of Commons. Scottish Affairs Committee, 2013 The Scottish Affairs Committee calls for the repeal of the Bedroom Tax While this is being considered the Committee calls on the Government to suspend application of the Bedroom Tax for all those tenants to whom a reasonable alternative offer cannot be made There are not enough smaller houses available for tenants to transfer into The lack of any alternative offers means that tenants have no choice but to go into arrears if they simply cannot afford the extra costs Other amendments proposed for the operation of the tax include exemptions for those disabled people who require a room to store or use equipment or aids non application where it would be financially perverse to do so eg where removing fixed aids and adaptations and then reinstalling them in a smaller home would be more expensive than the savings over two years all children of secondary school age should be allowed a bedroom of their own to allow quiet study all disabled children of whatever age should have a bedroom of their own The Committee also calls for changes to the system of Discretionary Housing Payments which have been designed by the Government to mitigate the worst impacts of the Bedroom Tax There should be a standard nationwide entitlement system across the UK as a whole rather than the present postcode lottery The UK and Scottish Governments

should make longer term commitments to the provision of DHP payments in order to allow local authorities to plan and structure their budgets

Educating Tomorrow's Engineers Great Britain: Parliament: House of Commons: Science and Technology Committee, 2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government s proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also welcomes the EBac s focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is

being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education's DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered
