H. Monjurul Kabir, 2018-07-21 This book is based on experience and reflections related to international support provided to parliaments and legislative bodies both in selected countries Afghanistan Bangladesh Ghana Serbia and Kyrgyzstan and globally The author intends to provide a critique of parliamentary support as part of development assistance or foreign aid for having been conceived in narrow terms of technical assistance and for failing to appreciate that aid effectiveness calls for a sound understanding of a country s politics culture and history The monograph examines the effectiveness of aid in both stable democracies and fragile and transition countries The project is ideal for audiences interested in regional politics the Middle

East Africa South Asia Central Asia and development democracy studies      **The Collected Documents of the Group of 77, Volume VII** Mourad Ahmia, 2024-05-07 This compilation of documents collects policy statements and common positions of the developing countries on climate change issues acting through the Group of 77 as a Global South coalition of nations in the framework of the United Nations system Climate change is one of the greatest challenges of our time and its widespread unprecedented impact burdens all countries in particular the Global South The volume features previously unreleased material and spans from the early 1990s to 2018      Combating Inequality Alexander Gallas, Hansjörg Herr, Frank Hoffer, Christoph Scherrer, 2015-12-22 Economic inequality has recently gained considerable academic attention However two important aspects of inequality have not been discussed systematically its multidimensional nature and the question of what can be done to reverse it This book offers insights from scholars representing the Global Labour University which operates in Brazil Germany India South Africa and the US They analyse the various drivers of inequality assess policy responses and discuss counterstrategies The main findings of this book are that rising levels of inequality cannot be addressed only with the standard policies responses namely education redistribution and green growth In addition the way markets currently function needs to be corrected The chapters in this volume focus on specific fields of contemporary capitalism where important drivers of inequality are located for example the labour market the financial system the tax system multi national corporations and gender relations Other chapters discuss in detail where political opportunities for change lie They critically assess existing countermeasures the idea of a green economy and its implications for inequality and existing campaigns by trade unions and new social movements against inequality In line with the global nature of the problem this book contains case studies on countries both from the north and south with considerable economic and political weight This book provides academics political practitioners and civil society activists with a range of ideas on how to drive back inequality It will be of interest to those who study political economy development economy and labour economics

**Dangerous Allies** Malcolm Fraser, Cain Roberts, 2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity Dangerous Allies examines Australia's history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia's security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

*Crisis Communication in a Digital World* Mark Sheehan, Deirdre Quinn-Allan, 2015-04-15 Crisis Communication in a Digital World provides an introduction to major crisis communication theories and issues management using practical examples from Australia and New Zealand The book examines how public relations can influence the nature of a crisis and the impact of its aftermath It explores the role of PR specialists in different crisis situations including natural disasters and morphing crises and examines the challenges they face in a world where social media is a key source of communication Readers are provided with an in depth understanding of crisis communication and issues management through practical approaches strategies and skills which are supplemented by relevant theories based on evidence and experience International perspectives have been included throughout to illustrate the impact of multinational companies on the digital world including global media cycles and social media activism Each chapter explores a different aspect of communications including media natural disasters and celebrity crises Intellectual Property Protection of Traditional Cultural Expressions Luo Li, 2014-04-22 The work reviews issues concerning the protection of folklore through the intellectual property legal system then explores two main issues in the protection of Chinese folklore The first issue is the influence of Chinese traditional culture on the Chinese intellectual property legal system and Chinese society The second concerns the deficiencies of the Chinese intellectual property system with regard to folklore Both issues are examined through a survey on the weak public recognition of intellectual property law and folklore in Chinese society The book also reveals the practical issues that have arisen in Southwest China through case studies After analysing these issues the work designs a model law specifically for folklore and also provides suggestions for how the current intellectual property legal system could establish a comprehensive legal protection system for folklore Furthermore the work shows that its proposed model law is effective in practice by resolving the issues in the case studies presented ATP-gated P2X receptors in health and disease Andrea Nistri, Geoffrey Burnstock, Baljit S Khakh, Rashid Giniatullin, 2015-01-05 Extracellular ATP is currently recognized as one of the most widely distributed neurotransmitters and neuromodulators in the peripheral and central nervous system ATP gated P2X receptors are expressed by neurons glial and many other non neuronal cells and represent an attractive target for therapeutic interventions Diverse molecular and cellular mechanisms have been identified for P2X receptor functioning including the ability to enlarge the size of the ion pore associated with the release of several key immune molecules A major recent breakthrough was the determination of the X ray crystal structures of zebrafish P2X4 receptor in ATP bound and ATP free states The P2X receptor research field is rapidly growing as evidenced by the almost 2000 papers published in the last 5 years However despite the fundamental signalling function of extracellular ATP in the nervous system the widespread roles of P2X receptors have not been widely elucidated and presented in textbooks In this volume of papers we aim to gather a collection of high quality papers detailing the latest insights from the most accomplished international P2X receptor researchers Importantly basic research into P2X receptors has a strong translational impact and our collection of articles

could be a valuable guide for the development of new pharmacological and biotechnological tools addressing the function of P2X receptors Within this collection we plan to cover receptor structure function relationships receptors trafficking to highlight the special properties of P2X receptors and their pharmacological profiles and to describe the translational aspects of cellular ATP signaling in pain and in other neurological and vascular diseases

*Psychosocial Perspectives on Peacebuilding* Brandon Hamber, Elizabeth Gallagher, 2014-11-04 The book *Psychosocial Perspectives on Peacebuilding* offers a template for those dealing with the aftermath of armed conflict to look at peacebuilding through a psychosocial lens This Volume and the case studies that are in it starts from the premise that armed conflict and the political violence that flows from it are deeply contextual and that in dealing with the impact of armed conflict context matters The book argues for a conceptual shift in which psychosocial practices are not merely about treating individuals and groups with context and culturally sensitive methods and approaches the contributors argue that such interventions and practices should in themselves shape social change This is of critical importance because the psychosocial method continually highlights how the social context is one of the primary causes of individual psychological distress The chapters in this book describe experiences within very different contexts including Guatemala Jerusalem Indian Kashmir Mozambique Northern Ireland South Africa and Sri Lanka The common thread between the case studies is that they each show how psychosocial interventions and practices can influence the peacebuilding environment and foster wider social change *Psychosocial Perspectives on Peacebuilding* is essential reading for social and peace psychologists as well as for students and researchers in the field of conflict and peace studies and for psychosocial practitioners and those working in post conflict areas for NGO s

procedures the BRICS approach to residence and mandatory and binding arbitration and the BRICS approach to shaping the developing world's international tax system. Notably the author personally conducted interviews with senior international representatives of the BRICS tax authorities as well as with leading BRICS academics and practitioners. Tax cases together with human rights and investment cases and administrative guidelines in all five countries are also included in the analysis. The study concludes with recommendations for improving each of the five countries' tax law and procedures especially in the area of dispute resolution. The author's goal is to extend the existing body of knowledge of the BRICS international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance an approach which facilitates both outbound and inbound FDI simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty. In achieving this objective the author has produced a major work that is of immeasurable value to tax advisers government and governance of officials academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities.

**Upgrading Informal Settlements in South Africa** Liza Rose Cirolia, Tristan Görgens, Mirjan van Donk, Warren Smit, Scott Drimie, 2017-11-10

More than 12 million households in South Africa live in informal settlements without access to adequate shelter services or secure tenure. There has been a gradual shift to upgrading these informal settlements in recent years and there have been some innovative experiments. *Upgrading Informal Settlements in South Africa* a partnership based approach examines the successes and challenges of informal settlement upgrading initiatives in South Africa and contextualises these experiences within global debates about informal settlement upgrading and urban transformation. The book discusses the South African informal settlement upgrading agenda from local national and international perspectives. South African city experiences with informal housing and upgrading. The role of partnerships actors and capabilities in pursuing an incremental upgrading agenda. Tools instruments and methodologies for incremental upgrading. Implications of the upgrading agenda for the transformation of cities. The book has been written and edited by a wide range of practitioners and researchers from government NGOs the private sector and academia. It covers theory and practice and represents a vast accumulated body of housing experience in South Africa.

**Playing with Fire** Yilmaz Akyüz, 2017-06-30. Starting in the early 1990s many emerging and developing economies (EDs) liberalized their capital accounts allowing greater freedom for international lenders and investors to enter their markets as well as for their residents to borrow and invest in international financial markets. Despite recurrent crises liberalization has continued and in fact accelerated in the new millennium. Integration has been greatly facilitated by progressively looser monetary policy in the United States notably the policies that culminated in debt crises in

the United States and Europe and the ultra easy monetary policy adopted in response Not only have their traditional cross border linkages been deepened and external balance sheets expanded rapidly but also foreign presence in their domestic financial markets and the presence of their nationals in foreign markets have reached unprecedented levels As a result new channels have emerged for the transmission of financial shocks from global boom bust cycles Almost all EDEs are now vulnerable irrespective of their balance of payments external debt net foreign assets and international reserve positions although these play an important role in the way such shocks could impinge on them This is a matter for concern since the multilateral system still lacks mechanisms for orderly resolution of financial crises with international dimensions Playing with Fire provides an empirical account of deeper integration of EDEs into the global financial system and discusses its implications for stability and growth focusing on the role of policies in the new millennium in both EDEs and the United States and Europe

**Institutional Supports for the International Rule of Law** Charles Sampford, Ramesh Thakur, 2014-08-27 The rule of law is widely seen as the cornerstone of any effective polity and increasingly a vital component of the international political system If the international rule of law were to be strengthened it would greatly contribute to trade security human rights and global cooperation in a range of fields Yet in many areas the rule of law seems almost absent in international affairs This book explores the institutions that support the effectiveness of the rule of law domestically It focuses on the extent to which similar institutions already exist at international level and analyses the possibility of their further development The authors speculate on how the international rule of law might be advanced in the future thereby suggesting potential strategies for strengthening the international rule of law Adopting an interdisciplinary approach and combining the fields of international relations politics and law this book covers a range of institutions including UN Security Council International Court of Justice Human rights machinery Regional human rights International Criminal Court World Trade Organization International Tribunal for the Law of the Sea UN Department of Peacekeeping Operations It will be of strong interest to students and scholars of international relations international organisations global governance international law migration law international peace and security law applied ethics political economy political science and sociology
