economic inclusion has risen to the top of the development discourse A well performing education system is central to
achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult
Access to education has increased but quality remains low with weaknesses in governance comprising an important part of
the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal
institutional arrangements for the public provision of basic education Using the vivid example of South Africa a country that
had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and
institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its
goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental
