Question Paper Of History In November 2014:

Transatlantic Anarchism during the Spanish Civil War and Revolution, 1936-1939 Morris Brodie, 2020-04-08

Between 1936 and 1939 the Spanish Civil War showcased anarchism to the world. News of the revolution in Spain energised a moribund international anarchist movement and activists from across the globe flocked to Spain to fight against fascism and build the revolution behind the front lines. Those that stayed at home set up groups and newspapers to send money, weapons and solidarity to their Spanish comrades. This book charts this little known phenomenon through a transnational case study of anarchists from Britain, Ireland and the United States using a thematic approach to place their efforts in the wider context of the civil war, the anarchist movement and the international left.

The State of Social Progress of Islamic Societies Habib Tiliouine, Richard J. Estes, 2016-04-08. This handbook addresses the historical background of the Islamic world and reviews its basic past intellectual achievements. It studies social progress of these regions and sub regions in comparison with other parts of the world. It uses large data sets and well established statistically weighted Indexes in order to assess the nature and pace of the multiple facets of social change in member states of the Organization of Islamic Cooperation (OIC). The handbook extensively discusses the main challenges confronting the Islamic nations in the social, economic, political and ideological fields. Though it is recognizable that social change in the Islamic World is generally positive, it remains highly variable in pace and there is room to speed it up to the benefit of millions of deprived Muslim people. Hence the book studies the different propositions and programs of action such as the United Nations Millennium Development Campaign and the OIC's Ten Year Programme of Action to present an integrated and comprehensive agenda of action to help improve the situation in the Islamic World.
