Stuss,Ryszard Borowiecki,2021-09-08 Sustainability

Technology and Innovation 4.0 is a holistic perception and analysis of innovation at the level of public organisations innovation in industry and innovation in HR. Its chapters collectively present a thesis that Innovation 4.0 signals a technological revolution that has the opportunity to prevent environmental degradation and in particular to stop climate warming the effects of which may disrupt the process of sustainable development. Uniquely this edited book offers a comprehensive and multi-faceted examination of Innovation 4.0 fulfilling methodical, empirical and utilitarian goals. The methodological objective is to present tools that allow the identification, analysis and assessment of the relationship between Innovation 4.0 and inspiration that will carry society towards a new economic and social order. Its empirical aim is to enable the analysis and evaluation of the role of public organisations innovation in industry and innovation in HR in the process of building sustainable development of the global environment. The book's utilitarian goal is a recommendation for global organisations of Innovation 4.0 as an instrument to stimulate an innovative economy. This is a high level research book aimed at postgraduates, MBA students, researchers and academics from business colleges and universities and may also provide a valuable strategic perspective for business executives. Family Systems Theory Simplified Bethany C. Suppes, 2022-08-12. In this textbook for students and instructors of marriage and family therapy, Bethany C. Suppes offers a refreshed perspective of family systems therapy (FST) focusing on the importance of understanding its concepts and demonstrating how models of marriage and family therapy can appear practically in counseling. In Part I, Suppes begins with a theoretical overview of FST including the history of development, key theorists and defining core concepts. In Part II, she focuses on application and explores nine key components of FST, identifying how various systemic therapy models apply these concepts. The book also covers the professional responsibilities of the systemic therapist and cultural considerations for those using the theory professionally. Primarily written for those having their first exposure to the ideas of FST, it explains concepts in a language and structure that is more comprehensive and culturally aware than existing literature, aiming to improve the therapeutic process for both therapist and client. Improving Learning Through Assessment Rubrics: Student Awareness of What and How They Learn Gonsalves, Chahna, Pearson, Jayne, 2023-08-14. Assessment by rubrics has emerged as a tool with great potential to guide successful student learning from a competency-based approach. Rubrics as instruments that make it possible to share the criteria for carrying out learning and assessment tasks with students are excellent roadmaps for student learning, largely because they allow students to know what they are expected to do and what they are expected to achieve by carrying out the learning tasks. Improving Learning Through Assessment Rubrics: Student Awareness of What and How They Learn contributes to the improvement of what is being evaluated by identifying the strengths as well as the weaknesses of the didactic use of rubrics in the assessment of university learning. The book also provides a set of theoretical issues, methodological elements and practical resources for the assessment of university learning using rubrics. Covering topics such as active learning, self-assessment and teacher identity, this reference work is ideal for administrators, policymakers,
