were vying for awards while programs like *Bones*, *CSI* and *Dexter* were pushing the envelope for graphic violence. All of these shows live on in syndication, streaming services and DVDs, generating a constant wave of new viewers. In *Television Series of the 2000s: Essential Facts and Quirky Details*, Vincent Terrace presents readers with a cornucopia of information about fifty programs from the decade. For example, did you know that Adrian Monk's father was a textbook writer? That psychic Shawn Spencer carries a travel size packet of Johnson's Baby Shampoo in his wallet? Or that Gregory House's street address is the same as the fictional world's greatest detective, Sherlock Holmes? These are just a handful of hundreds of fun and intriguing specifics found inside this volume. Programs from all of the major networks as well as select syndicated programs and premium cable channels are represented here. This is not a book of opinions or essays about specific television programs but a treasure trove of facts associated with each show. From the time of day that Sheldon Cooper calls his alone time to the janitor's name on *Scrubs*, readers will discover a wealth of fascinating information that for the most part cannot be found elsewhere. In some cases, the factual data detailed herein is the only such documentation that currently exists on shows of the era. *Television Series of the 2000s* is the ideal reference for fans of this decade and anyone looking to stump even the most knowledgeable trivia expert.

Slavery and Freedom in Delaware, 1639-1865 William H. Williams, 1996-06-01 William H. Williams fills a gap in the literature on slavery in America. This book is the first comprehensive analysis of the peculiar institution in the First State. An excellent text for courses in colonial and antebellum history, *Slavery and Freedom in Delaware* provides valuable insight into this unfortunate, unforgettable period in the nation's history.

In the Middle of the Middle Ages Mary Wheeler, Jill Terlep, 2006-11-30 Students revisit Europe during the Middle Ages through guided practice activities, poems, songs, and an educational play packaged into a unique teacher resource book. This title integrates creative arts, innovative activities, and original music. Content is selected to coordinate with national standards in art, history, and language arts. Two other important components of the book are a musical play and a pantomime. While entertaining students, it develops varied educational concepts and expands critical thinking skills. Students may stage the musical for an audience, act it out in class, or read it silently. All lyrics can be used as songs or read as poetry. Everything is reproducible. Grade 4-8.

Beyond Bombshells Jeffrey A. Brown, 2015-09-09 *Beyond Bombshells* analyzes the cultural importance of strong women in a variety of current media forms. Action heroines are now more popular in movies, comic books, television, and literature than they have ever been. Their spectacular presence represents shifting ideas about female agency, power, and sexuality. *Beyond Bombshells* explores how action heroines reveal and reconfigure perceptions about how and why women are capable of physically

dominating roles in modern fiction indicating the various strategies used to contain and or exploit female violence Focusing on a range of successful and controversial recent heroines in the mass media including Katniss Everdeen from The Hunger Games books and movies Lisbeth Salander from The Girl with the Dragon Tattoo novels and films and Hit Girl from the Kick Ass movies and comic books Jeffrey A Brown argues that the role of action heroine reveals evolving beliefs about femininity While women in action roles are still heavily sexualized and objectified they also challenge preconceived myths about normal or culturally appropriate gender behavior The ascribed sexuality of modern heroines remains Brown s consistent theme particularly how objectification intersects with issues of racial stereotyping romantic fantasies images of violent adolescent and preadolescent girls and neoliberal feminist revolutionary parables Individual chapters study the gendered dynamics of torture in action films the role of women in partnerships with male colleagues young women as well as revolutionary leaders in dystopic societies adolescent sexuality and romance in action narratives the historical import of nonwhite heroines and how modern African American Asian and Latina heroines both challenge and are restricted by longstanding racial stereotypes
