

Now you get accustomed to high contrast rock-photos prints, they have the same charm as a Beardsley black and white drawing, the same exotic fascination... to me, here on.

They do have to learn them, like learning a foreign language. They have a left and right profile in every face, and a top and bottom profile in every face... every hand gesture has its abstracted four-way fantastic reflection. This is what makes this art so very art, any side is the top, and every personality has four sides, four appearances. This means that they either FARE in that way, or they need an unswerving four-way mirror in the projection room!

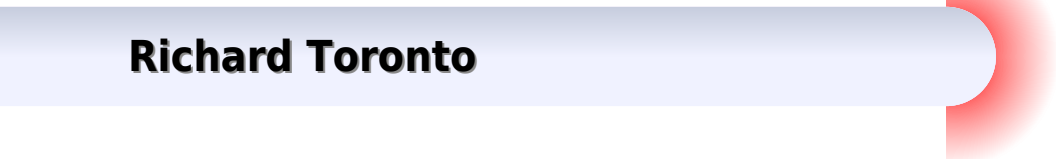

Learning a 360 print with colored jets gives you faces like this, multiples of faces in copies of faces... what I am supposed to do about it after I tell them I am never quite figure. To the average Joe this is insane idea, because he never heard of any "previous civilization" the whole thing is some sort of delusion, I suppose. If I don't want the prints, he "Don't see them" and if I do want them, I am "looking them from my imagination". Since I don't see, I don't try very hard.

BUT the rock books are a vast library from antiquity, of incalculable value. These people had solved ecological problems like overpopulation. They lived underground, farmed the whole surface of the earth. They lived in the oceans, too, as here and "Underwater". We think of ourselves as a mad sort of myth, but in fact they were our direct ancestors.

What to do about universal ignorance of one's technology is too much problem for me. I can't even sell a rock book! ("no rock interest".)

Richard Shaver Rock Books

Richard Toronto

Richard Shaver Rock Books:

Rokfogo Richard Toronto, Doug Skinner, Lora Santiago, 2014-09-25 In 1960 science fiction writer Richard Sharpe Shaver discovered rock books on his Wisconsin farm. He concluded they were not just rocks but intelligently designed documents that recorded the history of an ancient pre-deluge civilization. For 15 years he decoded the rock book texts and images he found embedded in stone and soon began painting and photographing what he found. It was an alien world that few other than Shaver could see. Shaver also wrote essays to compliment his paintings. He wrote of the people and customs of Earth's pre-history: the half-human, half-fish Mermen and women documenting their daily lives in intimate detail. He left behind a body of work that has languished in obscurity for decades. Richard Toronto has gathered together the largest collection of Shaver's art ever to see print. Presented in two volumes with more than 300 illustrations, *Rokfogo: The Mysterious Pre-Deluge Art of Richard S. Shaver* presents the paintings, photographs, and essays that made up Richard Shaver's ante-diluvian cosmology. Now considered an Outsider artist, Shaver was a pulp fiction writer during Amazing Stories' golden era. Shunned by mainstream science fiction fans for his radical ideas, Shaver died in obscurity in 1975, leaving behind his legacy of the sensual art of the ancients.

This Tragic Earth Richard S. Shaver, 2014-09-24 *THIS TRAGIC EARTH: The Art and World of Richard Sharpe Shaver* is finally back in print in a new expanded and improved edition. *HIS TRAGIC EARTH* gives a unique, long overdue look into the art and mind of Richard S. Shaver. Featuring a transcription of an actual hand-made book proposal by Shaver sent to Ray Palmer, this volume also contains 190 images, including over 100 lost images taken from one of a kind *rogfogo* or rock books by Shaver. These images, taken from photo-exposures of slices of solid rock, contain eerie and inexplicable images of people, monsters, creatures, structures, and devices—images which defy all rational explanation. Shaver claimed that these books were records left in crystal holography by an ancient race of beings who preceded man on this planet or were contemporary with our ancestors. Also featured are long-lost articles on how to find and create such images, written and illustrated by Shaver himself, along with unique correspondence, interviews, and other material that give a unique look into the mind and theories of Richard S. Shaver. This is one of a kind outsider artwork and his infamous Shaver Mystery. Much of the additional material has not been seen for decades, and when it was available, it was not widely circulated and was only seen by a few people, particularly the explanations and theories which were written by Richard Shaver for science fiction fanzines of the 1940s. In addition, new transcripts of the complete text of material which only appeared in scanned text form before are now included here for ease of reading. Shaver's own peculiarities of writing style and syntax are faithfully transcribed. The contents of this book should interest anomalies researchers, Fortean paranormal enthusiasts, and investigators, science fiction historians, and fans, and all those interested in outsider art. Nothing as utterly dedicated to Shaver's own thoughts and artwork has ever been produced before. Thanks very much for your interest in this book and happy reading.

Of Stegner's Folly Richard S. Shaver, 2011-06 Old Prof Stegner never foresaw the complications his selective anti gravitational field would cause Knowing the grand old man as I did I can say that he never intended his blessing should become the curse to mankind that it did And the catastrophe it brought about was certainly beyond range of all prophecy Of course anyone who lived in 1972 and tried to get inside Stegner s weird life circle must agree that you can get too much of a good thing Even a pumpkin can get too big and that s what happened when the Prof turned on his field things got big and too darned healthy I mean seriously A twenty foot goddess walked out of

Richard Sharpe Shaver: Some Stones Are Ancient Books Brian Tucker, 2025-04-29 Cult sci fi author and controversial theorist Richard Sharpe Shaver devoted his life to decoding messages from ancient civilizations left behind in rocks Science fiction writer Richard Sharpe Shaver believed that rocks were books imprinted with valuable information about such mythical ancient races as the Lemurians and Atlanteans His controversial stories about an advanced prehistoric civilization and a race of evil beings living at the center of the earth appeared in *Amazing Stories* and other landmark sci fi publications of the 40s and 50s A decade later he was living in relative isolation and devoting himself to rock book research a course of study that he shared with a devoted group of correspondents Shaver believed that ancient leaders had left behind images embedded into rocks which he then tried to interpret *Some Stones Are Ancient Books* contains a generous selection of Rokfogos accompanied by hand typed texts in which Shaver explains not always patiently all that can be seen in these stones Also included are facsimiles of his handmade books and publications all of which he felt to be of incalculable importance to civilization Richard Sharpe Shaver 1907-75 was an artist and author whose work frequently appeared in 1940s science fiction magazines such as *Amazing Stories* He was the center of the Shaver Mystery a controversy regarding his alleged discovery of a prehistoric civilization which sparked mass interest and a devoted following that continues to this day
