Robert Ludlum Book List:

Robert Ludlum's The Paris Option Robert Ludlum, Gayle Lynds, 2010-04-01 For 30 years Robert Ludlum's novels have set the standard for the finest in international intrigue and suspense. With an unbroken string of bestsellers in almost every country in the world, Robert Ludlum's books have been enjoyed by hundreds of millions of readers and are widely acknowledged as classics in the field. Now, after the bestselling Covert One novels *The Hades Factor* and *The Cassandra Compact*, comes the third thrilling novel in the series, *The Paris Option*. A fiery explosion in the dark of night shatters one of the laboratory buildings in Paris's esteemed Pasteur Institute. Among the dead is Emile Chambord, one of the leaders in the global race to create a molecular or DNA computer. Unfortunately, Professor Chambord kept the details of his work secret, and his notes were apparently destroyed in either the bomb blast or the raging fire that followed. The scientific community does not expect a workable DNA computer to be developed for years. But suddenly, U.S. fighter jets disappear from radar screens for a full five minutes, and there's no explanation. Utilities across the Western states cease functioning, and all telecommunications abruptly stop with devastating consequences. This is not the work of a clever hacker, although Washington, worried about a panic, assures the public it is. Only the enormous power and speed of a DNA computer could have caused such havoc. Under the cover of visiting his friend Marty Zellerbach, who was severely injured when the Pasteur lab was destroyed, Covert One agent Jon Smith flies to Paris to search for the connection between the Pasteur explosion and the forces now wielding the computer. Following a trail that leads him across two continents, Smith uncovers a web of deception that threatens to wreck havoc and forever reshape the world. **Robert Ludlum's The Bourne Evolution** Brian

Freeman, 2021-05-25 America's most enduring hero, Jason Bourne, returns in a propulsive fresh story for the Bourne canon that tests old skills and uncovers new ones. After the death of his lover in a mass shooting, secret agent Jason Bourne is convinced that there is more to her murder than it seems. Worse, he believes that Treadstone, the agency that made him who he is, that trained him, is behind the killing. Bourne goes rogue, leaving Treadstone behind and taking on a new mission to infiltrate and expose an anarchist group, Medusa. But when a congresswoman is assassinated in New York, Bourne is framed for the crime, and he finds himself alone and on the run, hunted by both Treadstone and the tech cabal that had hired him. In his quest to stay one step ahead of his enemies, Bourne teams up with a journalist, Abbey Laurent, to figure out who was behind the frame-up and to learn as much as he can about the ever-growing threat of the mysterious Medusa group. As more and more enemies begin to hunt Bourne, it's a race against the clock to discover who led him into a trap and what their next move may be. Robert Ludlum's (TM) The Bourne Objective Eric Van Lustbader, 2010-06-01 New York Times bestselling author Eric Van Lustbader returns with another Jason Bourne thriller as he spars off against another deadly agent, and he might be the perfect match for Bourne. Facing down mercenaries in Africa, Jason Bourne witnesses the death of an art dealer named Tracy Atherton. Her killing dredges up snippets of Bourne's impaired memory, in particular, the murder of a young

woman on Bali who entrusted him with a strangely engraved ring an artifact of such powerful significance that people have killed to obtain it Now he s determined to find the ring s owner and purpose But Bourne never knows what terrible acts he ll discover he committed when he digs into the past The trail will lead him through layers of conspiracy to a vicious Russian mercenary Leonid Arkadin who was also a graduate of the Central Intelligence training program Treadstone A covert course designed to create ruthless assassins for C I it was shuttered by Congress for corruption Yet before it was dismantled it produced Bourne and Arkadin giving them equal skills equal force and equal cunning As Bourne s destiny circles closer to Arkadin s it becomes clear that the eventual collision of these men is not of their own making Someone else has been watching and manipulating them Someone who wants to know Who is the more deadly agent *Robert Ludlum's (TM) The Bourne Betrayal* Eric Van Lustbader,2007-06-05 New York Times bestselling author Eric Van Lustbader bring another pulse pounding Jason Bourne thriller as Bourne s last friend in the world goes missing and Bourne will do another to bring him home Already devastated by loss Bourne is shattered by a report that his last friend in the world Martin Lindros has gone missing A CI deputy director Lindros was in Ethiopia tracking suspicious shipments of yellowcake uranium and atomic bomb weaponry His last lifeline to humanity Bourne will not let Lindros go Despite his hatred for CI Bourne sets out to rescue his friend and finish the job dismantling a terrorist network determined to build nuclear armaments by cutting off their source of money But Bourne doesn t realize that these men Islamic supremacists are leaders of an incredibly dangerous technologically savvy group with ties from Africa across the Middle East and into Eastern Europe and Russia They have predicted Bourne s every move and are counting on his unwitting help in their plans to destroy America **Robert Ludlum's The Bourne Initiative** Eric Van Lustbader,2017-06-20 Robert Ludlum's The Bourne Treachery Brian Freeman,2021-07-27 The world s most ruthlessly efficient assassin Jason Bourne is facing the one force he can t defeat his own past in the latest thrilling entry in Robert Ludlum s New York Times bestselling series Three years ago Jason Bourne embarked on a mission in Estonia with his partner and lover a fiery Treadstone agent code named Nova Their job was to rescue a Russian double agent who d been smuggled out of St Petersburg in the midst of an FSB manhunt They failed The Russian died at the hands of a shadowy assassin known only by the nickname Lennon Now everything has changed for Bourne Nova is gone killed in a mass shooting in Las Vegas Bourne is a lone operative working in the shadows for Treadstone when he s called in for a new mission in London to prevent another assassination masterminded by Lennon But nothing about this mission is what it seems As Bourne engages in a cat and mouse game with Lennon across the British countryside he discovers that everything he thought he knew about the past was a lie And with the body count rising he comes to an inevitable conclusion Some secrets should stay buried *Robert Ludlum's The Altman Code* Robert Ludlum,Gayle Lynds,2007-04-01 New York Times Bestselling Series For three decades Robert Ludlum s bestselling novels have set the standard in almost every country in the world against which all other novels of international intrigue are measured Now The Altman Code is the latest volume in the series of novels
