*Our Lady of Everyday Life* María Del Socorro

Castañeda-Liles, 2018-03-01. For Mexican Catholic women in the United States, devotion to Our Lady of Guadalupe, La Virgen, is a necessary aspect of their cultural identity. In this masterful ethnography, María Del Socorro Castañeda-Liles considers three generations of Mexican origin women between the ages of 18 and 82. She examines the Catholic beliefs the women inherited from their mothers and how these beliefs become the template from which they first learn to see themselves as people of faith. She also offers a comprehensive analysis of how Catholicism creates a culture in which Mexican origin women learn how to be good girls in a manner that reduces their agency to rubble. Through the nexus of faith and lived experience, these women develop a type of Mexican Catholic imagination that helps them challenge the sanctification of shame, guilt, and aguanté endurance at all cost. This imagination allows these women to transgress strict notions of what a good Catholic woman should be while retaining life-giving aspects of Catholicism. This transgression is most visible in their relationship to La Virgen, which is a fluid and deeply engaged process of self-awareness in everyday life.

### **Christianity in Roman Scythia**

Ionuț Holubeanu, 2024-01-15. At present, there is no scholarly consensus on the ecclesiastical organization in the Roman province of Scythia (4th-7th centuries). This volume proposes a new interpretation of some of the historical evidence concerning the evolution of the see of Tomi, a great metropolis, first with suffragan bishoprics outside Roman Scythia and then inside it, and later an autocephalous archbishopric. Though there are also many unclear aspects regarding the evolution of monastic life in the province, this book reveals that, in contrast with the development of the monastic infrastructure in Roman Scythia, a spiritual decline began in the mid-5th century.

**Subject Guide to Books in Print** ,2001 **Shadows of Doubt**

Stefania Tutino,2013-12-23 Named a Book of the Year by History Today In a compelling examination of the hermeneutical and epistemological anxieties gripping both the early modern and our current world Stefania Tutino shows that post Reformation Catholicism did not simply usher in modernity but postmodernity as well This deft study provides new insight into and a fresh perspective on the context of the Protestant Reformation and the Catholic response to it Shadows of Doubt provides a collection of case studies centered on the relationship between language the truth of men and the Truth of theology Most of these case studies illuminate little known figures in the history of early modern Catholicism While the militant aspects of post Tridentine Catholicism can be appreciated by studying figures such as Robert Bellarmine or Cesare Baronio who were the solid pillars of the intellectual and theological structure of the Church of Rome an understanding of the more fragile and shadowy aspects of early modernity requires an exploration of the demimonde of post Reformation Catholicism Tutino examines the thinkers whom few scholars mention and fewer read demonstrating that post Reformation Catholicism was not simply a world of solid certainties to be opposed to the Protestant falsehoods but also a world in which the stable Truth of theology existed alongside and contributed to a number of far less stable truths concerning the world of men Post Reformation Catholic culture was not only concerned with articulating and affirming absolute truths but also with exploring and negotiating the complex links between certainty and uncertainty By bringing to light this fascinating and hitherto largely unexamined side of post Tridentine Catholicism Tutino reveals that post Reformation Catholic culture was a vibrant laboratory for many of the issues that we face today it was a world of fractures and fractured truths which we with a heightened sensitivity to discrepancies and discontinuities are now well suited to understand

**Thomas Aquinas**

Frederick Christian Bauerschmidt,2013-08-30 Thomas Aquinas is widely recognized as one of history's most significant Christian theologians and one of the most powerful philosophical minds of the western tradition But what has often not been sufficiently attended to is the fact that he carried out his theological and philosophical labours as a part of his vocation as a Dominican friar dedicated to a life of preaching and the care of souls Fererick Christian Bauerschmidt places Aquinas's thought within the context of that vocation and argues that his views on issues of God creation Christology soteriology and

the Christian life are both shaped by and in service to the distinctive goals of the Dominicans What Aquinas says concerning both matters of faith and matters of reason as well as his understanding of the relationship between the two are illuminated by the particular Dominican call to serve God through handing on to others through preaching and teaching the fruits of one's own theological reflection

**Correspondence on Christology and Grace** Saint Fulgentius (Bishop of Ruspa), 2013 St Fulgentius of Ruspe was perhaps the most brilliant North African theologian in the era after St Augustine's death He wrote widely on theological and moral issues Between the years AD 519 and 523 Fulgentius engaged in correspondence with a group of Latin speaking monks from Scythia and that correspondence is translated into English almost all of it for the first time in this volume The correspondence is significant because it stands at the intersection of two great theological discussions the primarily Eastern Christological controversies between the Fourth Ecumenical Council in 451 and the Fifth in 553 and the largely Western Semi Pelagian controversy which ran from 427 to the Second Synod of Orange in 529 Contemporary Western scholars normally treat these controversies over Christ and grace separately but there were noteworthy points of contact between the two discussions and Fulgentius and the Scythian monks were the ones who drew the connections between Christology and grace most strongly These connections suggest that we today may do well to treat Christology and grace more as two sides of the same coin than as separate theological issues Both sets of issues deal fundamentally with the relation between God and humanity Christological questions ask how the divine and human are related in the person of the Savior and grace related questions ask how the divine and human are linked in the conversion Christian life and final salvation of each Christian Thus Fulgentius's correspondence with the Scythian monks can do more than simply aid understanding of sixth century Byzantine Roman theology It can also contribute to our contemporary thinking on the relation between two of the Christian faith's most central doctrines
