insights into the reader's daily life and nurture a Franciscan spirituality of the earth. Prayers, meditations, spiritual practices and group activities are offered which provide a practical, hands-on approach to reconnecting with the earth and acting in right relationship. Earth with all its creatures is in crisis. And responding to this crisis will require every possible resource of our human community. One of the most precious of these resources is the Franciscan tradition. It is a joy to welcome this book as a wise, thoughtful, inspiring and practical contribution to ecological theology grounded in ancient Christian tradition that sees Earth as our sister and mother. Care for Creation is part of a wider retrieval of Franciscan theology for our new time but is unique in this blend of three interrelated disciplines: scientifically informed ecology, theology and the practice of reflective action.
