David O. Taylor, Jeremy Begbie, 2019-09-03 How do the arts in worship form individuals and communities Every choice of art in worship opens up and closes down possibilities for the formation of our humanity Every practice of music every decision about language every use of our bodies every approach to visual media or church buildings forms our desires shapes our imaginations habituates our emotional instincts and reconfigures our identity as Christians in contextually meaningful ways generating thereby a sense of the triune God and of our place in the world *Glimpses of the New Creation* argues that the arts form us in worship by bringing us into intentional and intensive participation in the aesthetic aspect of our humanity that is our physical emotional imaginative and metaphorical capacities In so doing they invite the people of God to be conformed to Christ and to participate in the praise of Christ and in the praise of creation which by the Spirit's power raises its peculiar voice to the Father in heaven for the sake of the world that God so loves *Religion in Sociological Perspective* Keith A. Roberts, David Yamane, 2020-07-15 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop *Religion in Sociological Perspective* introduces students to the systems of meaning structure and belonging that make up the complex social phenomena we know as religion Authors Keith A Roberts and David Yamane use an active learning approach to illustrate the central theories and methods of research in the sociology of religion and show students how to apply these analytical tools to new groups they encounter The Seventh Edition departs from previous editions by emphasizing that the sociology of religion is an ongoing conversation among scholars in dialogue with existing scholarship and the social world This perspective is established in the new second chapter Historical Development of the Sociology of Religion Other chapters feature important voices from the past alongside the views of contemporary sociologists and conclude with a glimpse of where the sociology of religion might be heading in the future At every opportunity the text has been enriched by research and examples that are meant to challenge parochial limits in the sociology of religion pushing beyond Christianity congregations beliefs national borders especially the United States and even beyond religion itself to

take nonreligion more seriously Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides A student activity guide includes chapter specific exercises linked to resources within the ARDA *The Routledge Handbook of Megachurches* Afe Adogame, Chad M.
