Comparative Encounters Between Artaud, Michaux and the Zhuangzi Xiaofan Amy Li, 2017-12-02 The encounter between different minds and perspectives across time and space has always haunted the literary and philosophical imagination Just such an encounter is staged and played out in this comparative study which connects the twentieth century Francophone writers Antonin Artaud 1896 1948 and Henri Michaux 1899 1984 with the ancient Chinese text Zhuangzi c 4th 3rd century BCE These disparate texts are bridged by questions that draw them into close dialogue how can Artaud and Michaux who read about and admired ancient Chinese literature and culture be rethought through certain philosophical concerns that the Zhuangzi raises If the points of conceptual intersection focus on rationality cosmology and ethics what can they tell us about these important issues By imagining constructing and developing this thought encounter Li re envisages Artaud Michaux and the Zhuangzi through the kaleidoscope of comparative interpretation juxtaposing and recombining ideas and contexts to form new patterns and meanings Xiaofan Amy Li is Junior Research Fellow in Comparative Literature and Translation at St Anne's College Oxford University

Skill and Mastery Karyn Lai, Wai Wai Chiu, 2019-07-12 Skill and Mastery Philosophical Stories from the Zhuangzi presents an illuminating analysis of skill stories from the Zhuangzi a 4th century BCE Daoist text In this intriguing text that subverts conventional norms and pursuits ordinary activities such as swimming cicada catching and wheelmaking are executed with such remarkable efficacy and spontaneity that they seem like magical feats An international team of scholars explores these stories in their philosophical historical and political contexts Their analyses highlight the stories underlying conceptions of agency character and cultivation and relevance to contemporary debates on human action and experience The result is a valuable collection opening up new lines of inquiry in comparative East West philosophical debates on skill cultivation and mastery as well as cross disciplinary debates in psychology cognitive science and philosophy

Ecologies in Southeast Asian Literatures: Histories, Myths and Societies Chi P. Pham, Chitra Sankaran, Gurpreet Kaur, 2019-09-09 Ecocriticism in relation to the Southeast Asian region is relatively new So far John Charles Ryan's Ecocriticism in Southeast Asia is the first book of its kind to focus on the region and its literature to give an ecocritical analysis that volume compiles analyses of the eco literatures from most of the Southeast Asian region providing a broad insight into the ecological concerns of the region as depicted in its literatures and other cultural texts This edited volume furthers the study of Southeast Asian ecocriticism focusing specifically on prominent myths and histories and the myriad ways in which they connect to the social fabric of the region Our book is an original contribution to the expanding field of ecocriticism as it highlights the mytho

historical basis of many of the region's literatures and their relationship to the environment. The varied articles in this volume together explore the idea of nature and its relationship with humans. The always problematic questions that surround such explorations such as why do we regard nature as external or how is humankind a continuum with nature emerge throughout the volume either overtly or implicitly. As Pepper 1993 points out what Karl Marx referenced as first or external nature gave rise to humankind. But humanity worked on this first nature to produce a second nature, the material creations of society plus its institutions, ideas and values. Pepper 108. Thus our volume constantly negotiates this field of ideas and belief systems in diverse ways and in various cultures attempting to relate them to the current ecological predicaments of ASEAN. It will likely prove an invaluable resource for scholars and students of ecocriticism and more broadly of Southeast Asian cultures and literatures.

Poetic Images, Presence, and the Theater of Kenotic Rituals Enikő Sepsi, 2021-09-29. This book explores the interrelation of contemporary French theatre and poetry. Using the pictorial turn in the various branches of art and science, its observable features and the theoretical framework of the conceptual metaphor, this study seeks to gather together the divergent manners in which French poetry and theatre address this turn. Poetry in space and theatricality of poetry are studied alongside theatre, especially to the performative aspect of the originally theological concept of kenosis. In doing so, the author attempts to make use of the theological concept of kenosis of central importance in Novarina's oeuvre for theatrical and dramaturgical purposes. Within poetic rituals, kenotic rituals are also examined in the book in a few theatrical practices. János Pilinszky and Robert Wilson, Jerzy Grotowski and Eugenio Barba facilitating a better understanding of Novarina's works. Accompanied by new English translations in the appendices, this is the first English language monograph related to the French essayist, dramaturg and director Valère Novarina's theatre and will be of great interest to students and scholars in theatre and literature studies. The National Union Catalogs, 1963-1964 Discours d'un arbre sur la fragilité des hommes Olivier Bleys, 2015-08-19. Dans la banlieue de Shenyang, ancienne ville industrielle, la famille Zhang vit pauvrement au milieu d'usines d'affectés et d'abandonnés. Pourtant, Wei et les siens tiennent un trésor : le dernier arbre. Leur rêve : devenir propriétaires de leur petite maison afin d'honorer un serment fait aux parents de Wei enterrés sous le fameux arbre. Ce rêve est sur le point de se réaliser lorsqu'un grand projet minier menace soudain la famille d'expulsion. Une lutte inégale va alors s'engager opposant l'humble famille aux représentants du puissant capitalisme chinois. Prenant comme toile de fond les transformations violentes de la Chine contemporaine, *Discours d'un arbre sur la fragilité des hommes* revisite la fable du pot de terre contre le pot de fer. Belle et profonde méditation sur les liens qui unissent l'homme et la nature, ce roman écrit dans une langue magnifique est un conte réel qui ne laissera aucun lecteur indifférent.

Constructing Urban Space with Sounds and Music Ricciarda Belgiojoso, 2016-05-23 While we are used to looking around us we are less used to listening to what happens around us And yet the noises we produce reveal our way of life and learning to master them is a necessity This book aims at drawing the reader's attention to the sound of the urban environment The topic is by its very nature complex as it involves sounds and noises urban space and social activities Using an interdisciplinary approach it examines a heterogeneous selection of experimentations from the domains of music art and architecture Significant case studies of pieces of music public art works and scientific research in the field of urban planning are analyzed investigating the methods that have been adopted and the aural processes that have been generated It then uses the findings to reconstruct the underlying theories and practices and to show what might be drawn from these procedures applied to urban planning The overall objective is to learn to build and enrich space with sound arguing that there is a need to reconsider architecture and urban planning beyond building and to look to the world of the arts and other disciplines In doing so the book guides the reader toward a sensorial architecture and more generally toward consciously creating environmental architecture which is sustainable and connects with art and which diffuses a culture of sound

L'éducation au risque du spirituel Philippe Filliot, 2011-06-16 Alors que l'on se presse aujourd'hui aux conférences du Dala Lama ou pour voir Des hommes et des dieux notre système éducatif paraît étrangement sourd cet attrait pour le spirituel et la richesse des grandes traditions Comme figé dans des combats d'un autre âge Philippe Filliot propose une autre vision de l'éducation curieuse ouverte débarrassée de ses préjugés En faisant le détour par les spiritualités en explorant les rapports entre Occident et Orient il voit sous un angle inédit les défis de l'éducation et l'urgence de renouveler la pédagogie Dans ce dehors de l'univers scolaire qu'est l'approche spirituelle comment caractériser la relation du maître de l'élève et du savoir Au-delà des spécificités historiques et culturelles quel modèle de pensée pédagogique ressort de l'éducation spirituelle Comment enfin transposer au sein de la cité des éléments de spiritualité pour une éducation de notre temps

Lancez vous dans l'aventure philosophique avec les noms de dieux. Cet essai est un hommage rendu une mission culturelle majeure qui cherche du sens dans le tourbillon de l'actualité et part la découvre d'alternatives nos besoins superficiels. **EXTRAIT** Quelle est ma place sur cette terre et celle des sept milliards d'autres avec lesquels je partage actuellement le sort de l'humanité. Quel est notre rôle, notre responsabilité. Mon rôle, ma responsabilité, mon avenir, notre avenir. Quel sens donner notre existence, ce très bref passage dans un univers de plus en plus infini et qui existe depuis 14 milliards d'années, si pas plus voire beaucoup plus. L'instant du big bang, les cosmologistes s'en rapprochent pour expliquer ce qui s'est passé après. Mais avant. Une autre histoire a-t-elle eu lieu. L'homme commence comprendre, expliquer et même reproduire les lois qui régissent cet univers et son fonctionnement, une petite partie seulement car chaque découverte il entrevoit d'autres formes d'organisation de nouvelles hypothèses sur la matière et son contraire sans trouver les limites de l'infiniment grand ni de l'infiniment petit. En ce début de 21^{ème} siècle, notre orgueil n'a d'autre que notre inconscience nous sommes incapables de nourrir, loger, soigner, duquer plus d'une moitié des très humains. L'utilisation incontrôlée de nos inventions nous conduit vers la destruction de notre espèce au même titre que toutes celles radiquées définitivement ces cinquante dernières années. Par tonnement, par erreur, par hasard, par intuition, l'homme explique, imite, mais n'a rien inventé qui n'existait déjà sur terre, l'exception de dieu, des dieux. Que savons nous des dieux.

L'écoute en médiation Christophe Baulinet, Anne Guillaumat de Blignières, 2019-09-25. Cet ouvrage est une réflexion sur l'importance de l'écoute en médiation et dans d'autres situations de conflit. L'écoute est un enjeu crucial d'efficacité d'humanité et une attitude qui appelle une grande humilité. Une écoute de qualité n'est pas naturelle et nécessite de prendre conscience des difficultés, des limites et des biais qui ne permettent pas de se sentir écouter. Cela est vrai en médiation mais aussi lorsqu'un conflit surgit dans d'autres domaines : psychologie, profession, management, économie, famille. *Les Racines de la méditation* Marc de Smedt, Christophe André, 2020-03-04. La mode de la méditation va-t-elle retomber comme le font toutes les modes. Ou va-t-elle se transformer en un mouvement social profond et durable capable de modifier nos façons de vivre et de penser. Comment faire pour que son développement ne s'accompagne pas de dévoiement et sa diffusion de trop de simplification. Peut-être que la solution réside tout simplement dans la mémoire et le respect de ses racines. Ce livre est une référence en la matière et vous offre une synthèse remarquable de l'histoire de l'esprit et des techniques de méditations venues de tous les horizons : du bouddhisme au taoïsme, du Zen au soufisme, de l'hindouisme au christianisme, etc. Son auteur, Marc de Smedt, est un des pionniers de l'exploration de ce domaine au croisement de la spiritualité et de la psychologie. Vous ne pouvez rater d'un meilleur guide. Il est également un pratiquant rigoureux, notamment du Zen, et n'oublie pas de rappeler quel point la méditation ne doit pas être asservie, une quête de supériorité quelconque. Vivre en tant pleinement humain est suffisant et passionnant. Et la

meditation est l'une des voies pour nous y aider. Extrait de la préface de Christophe André. Cet ouvrage est la réédition d'un ancien titre Techniques de méditation. **Der intime Widerstand** Josep Maria Esquirol, 2021-11-30. Das Intime wie auch das Nächste ist mit dem Zuhause verbunden mit der Familie dem alltäglichen Brot dem Freund den Bekannten den Tritten und der Luft die man atmet. Sein Gegenteil ist nicht die Ferne sondern die Gleichgültigkeit. Der Himmel durch ein Fenster betrachtet kann Teil dieser Intimität sein während etwas das wir beinahe auf der Haut tragen wie die Kreditkarte die man gewöhnlich in der Brieftasche aufbewahrt uns in Wirklichkeit sehr fremd sein kann. Oft ist Leben als Projekt Freiheit Entscheidung oder Selbstverwirklichung verstanden worden als eine Art zentrifugale und zur Schau stellende Bewegung. In diesem Essay geht es darum wie eine solche Bewegung sich mit einer anderen verknüpft. Die Esquirol als Widerstand Zuflucht und den Rückzug in die Nähe bezeichnet. Intimer Widerstand meint keinerlei Individualismus oder Narzissmus sondern eher Zurückhaltung und Generosität. Die Reflexion über den intimen Widerstand wird so zu einer Philosophie der Nähe.
