Breaking the Exclusion Cycle Ana Bracic, 2020-03-24 Social exclusion of minority groups is an intractable problem in many diverse nations For some minority groups this means going to segregated schools for others not having access to gainful employment or quality healthcare But why does social exclusion persist and what can one do to stop it This book proposes a theory of how individual behavior contributes to social exclusion a novel method for measuring that behavior

and solutions to ending it Based on original fieldwork among Central and Eastern European Roma the largest ethnic minority in Europe yet still very understudied and non Roma Ana Bracic develops a theory she calls the exclusion cycle through which anti minority culture gives rise to discrimination by members of the majority and minority members develop survival strategies Members of the majority resent these strategies assuming that they are endemic to the minority group rather than an outcome of their own discriminatory behavior To illustrate her theory Bracic includes an analysis of a video game she created that simulates interactions between Roma and non Roma participants which members of these groups played through avatars thereby avoiding contentious face to face interactions The results demonstrate that majority members discriminate against minority members even when minority group members behave in ways identical to the majority It also shows the way in which minority members develop survival mechanisms Bracic draws on the results of the simulation to offer evidence that this cycle can be broken through NGO promoted discussion and interaction between groups She also draws on extant scholarship on interactions between Muslim women in France African Americans the Batwa in Uganda and their respective majority communities

The Aesthetics of Culture in Buffy the Vampire Slayer Matthew Pateman,2015-03-21 On the TV screen as elsewhere there is often more than meets the eye For decades television has offered not just entertainment but observations subtle and otherwise on society This book examines the cultural commentary contained in Buffy the Vampire Slayer a show that ran for seven seasons 1997 2003 and 144 episodes On the surface Buffy is the marriage of a high school drama to gothic horror This somewhat unusual vehicle is used to present via the character of Buffy fairly typical views of late 20th century culture teenage problems issues regarding a broken home and the search for meaning and validation In addition subtler themes such as cultural views of knowledge ethnicity and history are woven into the show s critique of popular culture Organized into two sections this volume offers an in depth examination of the show first through the lens of Buffy s confrontation with culture and second from the complex perspectives of the individual characters Issues such as values ethical choices and the implications of one s actions are discussed without ever losing sight of the limitations of a medium that will always be dominated by financial concerns The final chapter summarizes what Buffy has to say about today s society An appendix lists Buffy episodes in chronological order

Fighting the Forces Rhonda Wilcox,David Lavery,2002 For every television series the original vision grows within a press of forces both social and artistic expectations conventions of the business as well as conventions of the art Bad television predictable commercial exploitative simply yields to the forces Good television like the

Blood Relations Jes Battis, 2015-01-27 The television series Buffy and Angel revolve around radical conceptions of family Indeed their coherence depends on the establishment of nontraditional families that admit vampires demons witches werewolves and other bizarre characters without censuring them for their peculiarities This work argues that what makes these characters enduring and engaging is their critical family connections for their most involved struggles occur not within the graveyard but around the dinner table just as the most challenging adversarial forces that they must face are not demons or vampires but the stuff of everyday life What does family encompass within these two series How does it relate to concepts of gender sexuality power and the supernatural as they emerge from the shows complex narratives This book explores such questions It also examines the chosen family an idea marketed specifically by successful programs such as Friends and Sex in the City within the past ten years juxtaposing it against various images of the fractured biological family displayed in both Buffy and Angel Through eight chapters addressing various family related aspects within both shows this work plots the trajectory of this unstable notion of family even as it is transformed remediated and rendered unrecognizable from a family values perspective by the unique and supernatural relationships that proliferate in Buffy and Angel

Time in Television Narrative Melissa Ames, 2012-08 This collection analyzes twenty first century American television programs that rely upon temporal and narrative experimentation These shows play with time slowing it down to unfold the narrative through time retardation and compression They disrupt the chronological flow of time itself using flashbacks and insisting that viewers be able to situate themselves in both the present and the past narrative threads Although temporal play has existed on the small screen prior to the new millennium never before has narrative time been so

freely adapted in mainstream television The essayists offer explanations for not only the frequency of time play in contemporary programming but the implications of its sometimes disorienting presence Drawing upon the fields of cultural studies television scholarship and literary studies as well as overarching theories concerning postmodernity and narratology Time in Television Narrative offers some critical suggestions The increasing number of television programs concerned with time may stem from any and all of the following recent scientific approaches to quantum physics and temporality new conceptions of history and posthistory or trends in late capitalistic production and consumption in the new culture of instantaneity or in the recent trauma culture amplified after the September 11 attacks In short these televisual time experiments may very well be an aesthetic response to the climate from which they derive These essays analyze both ends of this continuum and also attend to another crucial variable the television viewer watching this new temporal play
