Farm Bureau. Home Department,1941 The Swedish, French, American Cook Book Mrs. Maria Mathilda (Ericsson) Hammond,1918 **Home Production of Quality Meats and Sausages** ,2012-03-21 There has been a need for a comprehensive one volume reference on the manufacture of meats and sausages at home There are many cookbooks loaded with recipes which do not build any foundation for the serious hobbyist to follow This leaves him with little understanding of the sausage making process and afraid to introduce his own ideas There are professional books that are written for meat plant managers or graduate students unfortunately these works are written in such difficult technical terms that most of them are beyond the comprehension of an average person Home Production of Quality Meats and Sausages bridges the gap that exists between highly technical textbooks and the requirements of the typical hobbyist In order to simplify this gap to the absolute minimum technical terms were substituted with their equivalent but simpler terms and many photographs drawings and tables were included The book covers topics such as curing and making brines smoking

meats and sausages U S Standards making fresh smoked emulsified fermented and air dried products making special sausages such as head cheeses blood and liver sausages low salt low fat and Kosher products hams bacon butts and loins poultry fish and game creating your own recipes and much more To get the reader started 172 recipes are provided which were chosen for their originality and historical value They carry an enormous value as a study material and as a valuable resource on making meat products and sausages Although recipes play an important role in these products it is the process that ultimately decides the sausage quality It is perfectly clear that the authors don t want the reader to copy the recipes only We want him to understand the sausage making process and we want him to create his own recipes We want him to be the sausage maker
