April 12, 2016 • 2 min read • original

1) **Do an online research.** Before you pack your things and go to the library, do an online research from the comfort of your laptop. Here are a couple of academic search engines that will offer you a safe and student friendly environment:

- Scholar.google.com
- The OALster database
- Internet Public Library

2) **Effectively manage knowledge.** Use special apps to save and organize the information you collect. Here's what can help:

- Mendeley
- Biblioscape
- Bookends

3) **Brainstorm your topic.** This simple method can save you plenty of time and bring surprising results. Set a timer and try to generate as many ideas as possible within a chosen time period. Make it a rule to write down every idea crossing your mind (even if it seems crazy). You'll have time to sort out your ideas later.

4) **Create an outline.** After you choose all major arguments, work on the logical structure of your paper. As an option, draw a mind map for your would-be paper.

5) **Create a thesis statement.** Just like any other academic paper, your Philosophy term paper will require a strong thesis statement, the last sentence in the introduction part, briefly summarizing the main idea of your paper.

6) **Write a stunning introduction.** Start with an attention hook – a quote, a rhetorical question, striking stats or an interesting fact.

7) **Explain why you chose this topic.**
