Assessment is an integral part of instruction For the past decade the focus on assessment particularly via high stakes mandated tests has shifted away from the classroom and left teachers feeling like they are drowning in data Assessment is and needs to be again much more than a number Assessment in Perspective is about moving beyond the numbers and using assessment to find the stories they tell This book helps teachers sort through the myriad of available assessments and use each to understand different facets of their readers It discusses how to use a range of assessment types from reading conference notes and student work to running records and state tests together to uncover the strengths and weaknesses of a reader The authors share a framework for thinking about the purpose method and types of different assessments They also address the questions they ask when choosing or analyzing assessments What type of tool do we need diagnostic formative or summative formal or informal quantitative or qualitative How do we use multiple assessments together to provide an in depth picture of a reader When and how are we giving the assessment Do we want to be able to compare our readers to a standard score or do we need to diagnose a reader s needs Which area of reading does this tool assess How can we use the information from assessments to inform our instruction What information does a particular assessment tell us and what doesn t it tell us What additional information do we need about a reader to understand his or her learning needs The book emphasizes the importance of triangulating data by using varied sources both formal and informal and across multiple

intervals It explains the power of looking at different types of assessments side by side with displays to find patterns or inconsistencies What's more students are included as valuable sources of data Letting students in on the process of assessment is key to helping them set goals monitor their own progress and celebrate growth When assessment is viewed in this way instruction can meet high standards and still be developmentally appropriate Reading Randomised Controlled Trials Robert Savage, Amy Fox, Anneka Dawson, Helen Gray, Clare Huxley, 2025-03-03 In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children This study aimed to provide valuable insights into the success of largely school based education trials The Flexible Phonics trial proved to be not only an important experiment in improving children's literacy but a case study in which the methodology of single randomised controlled trials in education can be considered Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity The book emphasises the human operations decision making and actions that drive such trials which are often overlooked in published reports Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid 19 pandemic Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education *Behavior Academies* Jessica Djabrayan Hannigan, John Hannigan, 2024-04-02 With student behavioral problems and teacher turnover at all time highs educators need behavioral interventions that work With its practical behavior intervention method this book replaces problematic behaviors with essential life skills for school and beyond Educators can implement effective targeted interventions in twenty five minutes or less using eight predefined behavior academies and a process to create their own This book will help K 12 educators Address their own beliefs about students challenging behavior Learn the eight behavior academies and their corresponding life skills Identify the core components of an academy's initial ongoing and exit sessions Build their own behavior academy with a clearly outlined process Use behavior rehearsal cards for an academy's ongoing sessions Contents Introduction Chapter 1 Behavior Mindset Chapter 2 Behavior Academy Chapter 3 Behavior Academy Structure Chapter 4 Behavior Academy Rehearsal Cards Chapter 5 Build Your Own Behavior Academy Chapter 6 Frequently Asked Questions and Additional Tools **It's Possible!** Pati Montgomery, Angela Hanlin, 2024-12-17 Applying the findings from the science of reading as well as the research on school leadership and highly effective schools authors Pati Montgomery and Angela Hanlin guide principals and leaders on how to build systems and structures needed to ensure quality literacy instruction Principals and leaders can implement the science of reading support teachers and increase literacy proficiency for all K 8 educational leaders will use this book to Understand how to design a tiered literacy
