Understanding Contemporary Journalism Tatah Mentan,2022-01-03 Journalism is one of the most important professions today Without it large swaths of the world similarly might have remained dark impoverished tortured because few people would have been aware of the nature and depth of the atrocities therein You can t fix what you can t find Indeed we have only to look at places today where journalists must risk their lives to do their jobs places such as Central Europe the Philippines Mexico Myanmar Russia Turkey Democratic Republic of Congo Rwanda Cameroun Afghanistan and too many others to appreciate anew what an incalculable difference the media make reporting on wars famines genocide and the tyrants who green light them But saving the world apparently is not enough I have included a chapter on Peace Journalism because it uses conflict analysis and transformation to update the concept of balance fairness and accuracy in reporting This approach provides a new road map tracing the connections between journalists their sources the stories they cover and the consequences of their reporting the ethics of journalistic intervention to play a role in global peace rather than fuelling conflicts **Practicing Convergence Journalism** Janet Kolodzy,2012-10-12 Practicing Convergence Journalism teaches budding journalists how to make the most of digital technology to tell their stories effectively across multiple media platforms in print audio video and online Janet Kolodzy addresses multi media and cross media thinking organizing reporting and producing for both short form spot news and long form features Her approach focuses on storytelling principles not just specific technical practices providing journalists with the mindset and skills they need to adapt their writing and reporting for the tools of today and tomorrow With this book and the aid of its companion website students learn how to Develop a cross media mode of journalistic thinking that will result in stories suitable for a fast paced multitasking and mobile audience Decide when visuals are useful and necessary and understand how to capture select and organize them to effectively enhance a reader s understanding of a story Put together various elements of storytelling writing audio moving and still pictures for an interactive journalistic experience **Falling Practice** Karen L. Jorgensen,2005 *The Palgrave Handbook of Women and Gender in Twentieth-Century Russia and the Soviet Union* Melanie Ilic,2017-11-30 This handbook brings together recent and emerging research in the broad areas of women and gender studies focusing on pre revolutionary Russia the Soviet Union and the post Soviet Russian Federation For the Soviet period in particular individual chapters extend the geographic coverage of the book beyond Russia itself to examine women and gender relations in the Soviet East Tatarstan Central Asia Kazakhstan Tajikistan and Uzbekistan and the Baltic States Estonia Latvia and Lithuania Within the boundaries

of the Russian Federation the scope moves beyond the typically studied urban centres of Moscow and St Petersburg to examine the regions Krasnodar Novosibirsk rural societies and village life Its chapters examine the construction of gender identities and shifts in gender roles during the twentieth century as well as the changing status and roles of women vis a vis men in Soviet political institutions the workplace and society more generally This volume draws on a broad range of disciplinary and methodological approaches currently being employed in the academic field of Russian studies The origins of the individual contributions can be identified in a range of conventional subject disciplines history literature sociology political science cultural studies but the chapters also adopt a cross and inter disciplinary approach to the topic of study This handbook therefore builds on and extends the foundations of Russian women s and gender studies as it has emerged and developed in recent decades and demonstrate the international indeed global reach of such research

Now Vincent Lavoie, 2003-01-01 While the crisis that took place in photojournalism during the 1960 s brought about a significant shift in the practices discourses and institutional structures of press photography it also affected the practices of artists specifically with regard to work devoted to revitalizing the depiction of events The art world attempted to revitalize the historical genre by undertaking its critical rereading in the spirit of restoring a tradition diminished by the mass media The problem may be expressed in these terms How can history be depicted bearing in mind that the media mainly photojournalism and the electronic press have claimed a monopoly of the genre unto themselves At issue is the sizeable problem of mass media omnipotence as an obligatory referential universe for historiographical artistic practices Today it seems impossible to depict the event in any way other than by accentuating or eschewing the formal attributes rhetorical artifices and ideological precepts of the mass media These approaches to addressing historical moments have been examined in this article both because they epitomize contemporary historical writing and for the most part they constitute critical responses to stereotyped depictions of events Above all they represent a paradigm shift the mass media s prerogatives for depicting historical moments has shifted towards the field of art Contemporary depictions of catastrophe crimes sensationalist news items terrorist attacks humanitarian disasters genocides common themes in many of the artistic projects represented in the 8th edition of the *Mois de la Photo* a Montreal have been especially striking in this respect For of all contemporary events catastrophes are the most likely to be spontaneously propelled to the top of the news roster and the most susceptible to the various inflections of contemporary art photography
