Curran,2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of Humanae vitae Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States , **Saint Alphonse de Liguori** saint Alphonse Marie de Liguori,1957 *Sadliers' Catholic Directory, Almanac and Ordo* ,1891 With a full report of the various dioceses in the United States and British North America and a list of archbishops bishops and priests in Ireland **Christian-Muslim Relations. Curran,1997-02-01 Charles E Curran presents the first in depth analysis of the origins of Catholic moral theology in the United States focusing on three significant figures in the late nineteenth century and demonstrating that methodological pluralism and theological diversity existed in the Church even then Curran begins by tracing the historical development of moral theology especially as presented in nineteenth century manuals of moral theology which offered a legal model of morality including a heavy emphasis on canon law He then probes the different approaches and ideas of three important writers Aloysius Sabetti a Jesuit who was a typical as well as the most influential American manualist Thomas J Bouquillon first chair of moral theology at Catholic University of America a neoscholastic who criticized the manuals approach as narrow and incomplete for failing to address principles virtues and the connection to systematic theology and clerical educator John B Hogan a casuist who developed a more inductive and historically conscious methodology Curran describes how all three men dealt in different ways with the increasing role of authoritative teachings in moral theology from the Vatican He also shows how they reflected their American context and the views of their own time on women and sexuality So little attention has been paid to the development of moral theology in this country that these authors are unknown to many scholars Curran s book corrects this oversight and proposes that the ferment revealed in their writings offers important lessons for contemporary Catholic moral theology [The Catholic Encyclopedia](#) Charles George Herbermann,1907 **The Mauritius Almanac and Colonial Register** ,1871 **Report of the Commission for the Revision and Consolidation of the General Statutes of the Province of Québec** Québec (Province).
