Accounting Information Systems Arline A. Savage, Danielle Brannock, Alicja Foksinska, 2024. Accounting Information Systems presents a modern professional perspective that develops the necessary skills students need to be the accountants of the future. Through high-quality assessment and a tool-agnostic approach, students learn course concepts more efficiently and understand how course concepts are applied in the workplace through real-world application. To help students to be the accountants of the future, the authors incorporate their own industry experience and help showcase how AIS concepts are used through tools, spotlighting real accounting professionals and job opportunities. This international edition provides new and expanded coverage of topics including components of AIS, database forms and reports, and software tools for graphical documentation. The edition also includes new cases from across the world in the In the Real World feature in select chapters, showing how the concepts in the chapter apply to a real-world company or business. Every chapter now includes new Concept Review questions at the end of each section, focusing on key points students need to remember.
