Interior, Environment, and Related Agencies Appropriations for 2010 United States. Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies,2009 **The Digital NBA** Steven Secular,2023-06-20 The National Basketball Association reaches a global audience via a multiplatform strategy that leverages its uncanny ability to connect fans to all things NBA Steven Secular brings readers inside the league s global

operations and traces the history of the NBA's approach to sports media from its 1980s embrace of cable through the streaming revolution of the twenty-first century. As fans around the world stream games and other league content, NBA teams incorporate foreign languages and cultures into broadcasts to boost their products' appeal to audiences in Brazil, China, and beyond. Secular's analysis reveals how the NBA continues to transform itself into a wildly successful media producer and distributor more akin to a streaming studio than the sports leagues of old, even as its media partners and sponsors erase any notion of sports as a civic good. A timely look at a dynamic media landscape. *The Digital NBA* shows how the games we love became content first and sport a distant second. *Teacher's Guide* Karen Gentry-Ederer, 2012-09-30 Create a common language for the school teachers and parents with the help of this Teacher's Guide. Lott, 2025-09-04 In recent years museums have found themselves on the front pages for all the wrong reasons News coverage once reserved for exciting exhibits or landmark donations now shines a harsh spotlight on controversies leadership disputes funding flaws political orders and an array of reputational crises Two thirds of museum leaders report feeling unprepared when facing journalists with many describing their first media crisis as overwhelming and damaging These stories broadcast to national audiences shape public perceptions in minutes sometimes undoing years of careful work The heart of the issue lies in a critical and often overlooked gap while museum directors typically master museum administration curatorial or educational work few possess the training or experience needed to respond to relentless media scrutiny Nearly every museum from the largest institution to local history centers struggles with limited resources This gap has led to missed opportunities for positive news coverage and in some cases public misunderstandings that have hurt careers and endangered institutional trust Museum Flack arrives at this moment to fill the void an essential guide for everyone from students entering the field to seasoned executives and board members Drawing from lessons earned in high stakes media campaigns in aerospace and technology and enriched by illuminating museum specific case studies this book lays out exactly how museum professionals can Shape compelling narratives for the media Turn crisis moments into opportunities for trust building Secure positive national news coverage with thoughtful planning not enormous budgets Confidently navigate the modern media landscape from newspapers to TikTok Museum Flack unpacks the techniques behind headlines and empowers any museum

professional to advocate for their institution safeguard its reputation and seize the media spotlight for all the right reasons Every chapter offers step by step tactics and real world examples transforming complex communications challenges into clear actionable strategies The time to master museum public relations is now Readers who embrace these lessons will champion their institutions protect their legacies and help museums thrive even under the sharpest media lens **Field Artillery** ,1996 *Ubiquitous Computing Systems* Haruhisa Ichikawa,We-Duke Cho,Ichiro Satoh,Hee Yong Youn,2007-11-02 This book constitutes the refereed proceedings of the 4th International Symposium on Ubiquitous Computing Systems UCS 2007 held in Tokyo Japan in November 2007 The 16 revised full papers and eight revised short papers presented were carefully reviewed and selected from 96 submissions The papers are organized in topical sections on security and privacy context awareness sensing systems and sensor network middleware modeling and social aspects smart devices and network
