Account of Captain James Cook

Sunday 19th April 1770

Almost a week had passed since Lieutenant Hicks shouted 'land ahoy' and furnished our discovery of the east coast of New Holland.

Since then, we have sailed the Endeavour steadily northwards, keeping land in sight all the while. We have been kept busy mapping the coastline of this new and mysterious land.

On the morning of Sunday 19th April, we reached a place of great interest. It was a wide but shallow inlet, the immediately dropped anchor off a low headland covered with sand dunes. The great number of shipwrecks caught that morning prompted me to rather uncreatively name this place 'Shipwreck Harbour'.

Around lunchtime we lifted anchor and sailed the Endeavour into the inlet. On either headland, we saw natives.

Soon after we dropped anchor again, a number of fellow sailors and myself set out in a rowboat to investigate. As we drifted toward the shore I said to sailor Isaac Smith, 'Jump out, Isaac,' thus making him the first European to set foot on the jilted east coast of New Holland. We all went followed and waded through the shallow, warm water to the shore.

We all went followed and waded through the shallow, warm water to the shore.

After they had waded across there from a group of us in a boat and the first one landing alone, they saw an old man, the other a younger fellow. We asked them why they would not accept them. Perhaps they had misunderstood what we had said. Doubtless, one of my men then went up.

## Cook's Landing Botany Bay

A week, including the night, they did not even look at a number of other men they spent at us - all looking friendly. I am quite sure over their heads and shoulders.

Of course, there we found only a small number of shells to communicate with the group, and returned to our boat.

It is a wonderful day. The next day the weather permitted our explorations up the east coast of the ship. We were in sight of the shore.

Howe,Gail S. Goodman,Dante Cicchetti,2008 Few questions in psychology have generated as much debate as those concerning the impact of childhood trauma on memory A lack of scientific research to constrain theory has helped fuel arguments about whether childhood trauma leads to deficits that result in conditions such as false memory or lost memory and whether neurohormonal changes that are correlated with childhood trauma can be associated with changes in memory Scientists have also struggled with more theoretical concerns such as how to conceptualize and measure distress and other negative emotions in terms of for example discrete emotions physiological response and observer ratings To answer these questions Mark L Howe Gail Goodman and Dante Cicchetti have brought together the most current and innovative neurobiological cognitive clinical and legal research on stress and memory development This research examines the effects

of early stressful and traumatic experiences on the development of memory in childhood and elucidates how early trauma is related to other measures of cognitive and clinical functioning in childhood It also goes beyond childhood to both explore the long term impact of stressful and traumatic experiences on the entire course of normal memory development and determine the longevity of trauma memories that are formed early in life Stress Trauma and Children s Memory Development will be a valuable resource for anyone interested in early experience childhood trauma and memory research *Early Years*

Rebecca W. Poe Hays,2021-06-29 Providing balance to the general scholarly trend to focus on the non narrative aspect of Hebrew poetry this book argues that the Hebrew Psalter does contain stories and their inclusion in ancient Israel s worship texts contributes to the rhetorical power of the psalms in ways distinct from other poetic devices Rebecca W Poe Hays builds on literary theory and biblical studies of narrative to establish a clear definition of story and to identify where story appears in the book of Psalms The majority of the book explores how these story portions of the Psalter divided into the three broad categories of retellings of history testimonies and paradigms function within their larger contexts Each chapter includes a

discussion of a particular category's general characteristics a close reading of representative texts and an assessment of distinctive ways each type of story functions in the psalms in which they appear These poetic psalmic stories have the rhetorical power to draw readers uniquely into narrative worlds and inspire empathy to guide readers into particular understandings of history and teach inductively and to concretize the abstract and so shape the beliefs and behaviors of the communities who regard them as sacred texts
