fields specifically for undergraduate and postgraduate students and clinicians in Australia and New Zealand and fully updated in its seventh edition this book is a perfect introduction and long term resource to support research methods and evidence based practice throughout their professional careers

Becoming a Midwife Ellie Durant, 2023-02-23 A must have for all aspiring and current student midwives and Newly Qualified Midwives Carinna Griffiths lecturer in Midwifery Written in a friendly and uplifting tone Becoming a Midwife provides students and newly qualified midwives with the tools and support they need to thrive on their course on placement and in the early stages of their careers The first part of the book focuses on core academic skills including chapters on time management writing essays and reflections delivering presentations and preparing for exams The book then establishes the fundamentals of clinical practice and presents tried and tested strategies for developing clinical skills alongside guidance on managing workplace relationships and challenges The final chapters help students make the transition to newly qualified with guidance on job applications advocacy and career options Acknowledging that midwifery can be a challenging and emotionally demanding profession this book has a strong focus on self care and seeking support as well as managing stress avoiding burnout and juggling work study and life Chapters are enriched with insights from students and practising midwives practical tips worksheets to promote reflective practice and suggestions for further reading Accompanying online resources for this title can be found at midwifediaries.com including videos blogs and interviews with practising midwives

Fundamentals of Nursing and Midwifery Research Beverley Copnell, Lisa McKenna, 2020-07-25 Nurses and midwives have a professional responsibility to keep up to date with current research impacting on their clinical practice They require the skills and knowledge to read and understand research reports evaluate the quality of the research synthesise different research studies apply the most appropriate findings to their clinical practice and be able to evaluate its effectiveness This book presents a unique approach to teaching the principles of health research using practical case studies with which students can identify and engage The book covers core concepts and principles including what evidence is and why understanding research is vital finding reliable sources of evidence the nature of the research process understanding quantitative and qualitative research ethical considerations using research to guide clinical practice Throughout the book activities summaries and review questions help ground theory in real life scenarios highlighting how evidence based practice can be applied in every aspect of nursing care The text is highly readable while achieving the aim of familiarising the reader with the language of and process for doing research It is logically organised and guides reader learning using a variety of techniques that reinforce the information presented and challenge thinking

Karen Francis Professor of Nursing and Head of Nursing University of Tasmania

Writing Skills for Nursing and Midwifery Students Dena Bain Taylor, 2012-11-16 Nursing and midwifery students are required to communicate in writing in a variety of forms for a variety of potential audiences including their colleagues allied health professionals administrators and most importantly their patients and the public Dena Bain Taylor is an experienced teacher of writing and critical skills across the

range of allied health professions and understands the types of writing nursing and midwifery students do and the writing issues they face Her accessible straightforward book tailored specifically to the content and conventions of nursing and midwifery curricula teaches students to write persuasively and correctly both to support them in their courses and to prepare them for their professional careers The book offers practical strategies for using language to achieve clear persuasive writing provides clear explanations of underlying principles contains samples of good and improvable writing leading the student step by step through the whole writing process focuses on the genres and styles of writing that nursing and midwifery students are typically asked for With regular summaries learning aids checklists and a glossary of key terms nursing and midwifery students at all levels will find this book easy to follow and handy to refer to for help with the writing they need to do throughout their course

Nursing and Midwifery Research Dean Whitehead, Geri LoBiondo-Wood, Judith

Haber, 2012-10-30 The new edition upholds the premise that knowledge about research process and design is mandatory in today's health care arena and that all nurses and midwives need to understand research findings and their implication for changing practice It is completely revised with many new chapters The text has been restructured into three sections Section 1 Research Awareness sets the scene for the importance of nursing and midwifery research and provides an overview of research theory and practice as processes Chapters on searching for and reviewing the literature provide detailed advice for undergraduates and facilitate access to research articles online One of the new chapters discusses ethical issues in Australia and New Zealand Section 2 Appreciation and Application provides a detailed discussion of qualitative quantitative and mixed methods research approaches with many useful examples from the clinical area Section 3 Conducting primary research is new and is designed to accommodate both undergraduate and postgraduate students in their research effort Writing research proposals may be a requirement for undergraduates in their research program and postgraduates will find the information useful for undertaking a higher degree or applying for university or external funding This final Section is also useful as a guide on disseminating and publishing conducted research findings Combined Australian and New Zealand editorship ensures greater trans Tasman coverage awareness and relevance Contributions from international luminaries are balanced by a heightened focus on research conducted within Australia and New Zealand New edition conscientiously recognises midwifery research as related to but independent from nursing The research process driven approach is directed towards consumers of research and the comprehensive coverage extends from undergraduate through to a postgraduate level of knowledge Expanded pedagogy includes Key Terms and Learning Outcomes at the beginning of each chapter Icons throughout that direct readers to web based material Evidence based Tips Research in Brief boxes and Points to Ponder for constant reinforcement that links evidence to practice Integrated Tutorial Triggers with suggested answers provided and Multiple Choice Questions enable students to assess their understanding of key points Evolve Website provides True False questions and access to journal articles cited in the text with additional reflective questions Chapter 1 The significance of

nursing research identifies the current changes in practice and future directions in Australian health care Previous chapters 3 and 4 have been combined to become Chapter 3 Searching and reviewing the literature A detailed discussion of qualitative quantitative and mixed methods research approaches Increased Australian and New Zealand context and research examples More accessible language throughout
