

To Whom It May Concern:

I am writing this letter of recommendation on behalf of Dailyn Foster, a 12th grade student at Renaissance High School who will be graduating in the spring of 2010. Dailyn has been a very good student that has maintained a 3.3 G.P.A. and scored a 22 on her ACT exam.

Dailyn has been involved in many meaningful extra-curricular activities which include Earth Tomorrow, a school club that focuses on keeping the Earth a safe place and partnerships with other organizations that do similar things. She has also been a member of Students-Against Destructive Decisions, an organization that focuses on teenagers making healthy decisions in each area of their lives. She participated in a Diversity Club that focuses on people of different cultures and ethnicities living and working together. She has also done community service with Delsprite, which includes visiting disadvantaged children, the elderly, and feeding homeless people. She has also been a member of ROTC, is the Parliamentarian of DECA, and a member of the Spanish National Honor Society.

Dailyn is also a very creative thinker that has exceptional critical thinking skills. Although she has been a very good student, her discussion skills, as well as leadership skills are exceptional and will make her very good in the career she chooses. I highly recommend Dailyn to be admitted into Howard University. She is a good student and exceptional person that represents our school well, and will represent herself and the University she attends well in the future.

Sincerely,

Mitchell Bradley

Wissner-Gross,2008-06-24 From the author of *What Colleges Don t Tell You* a plan to help parents of middle and early high school students prepare their kids for the best colleges In order to succeed in the fiercely competitive college admissions game you need a game plan and you have to start young In this empowering guide Elizabeth Wissner Gross a nationally sought after college packager helps parents of seventh to tenth graders create a long term plan that come senior year will allow their kids to virtually write their own ticket into their choice of schools Parents should start by helping their kids identify their academic passions then design a four year strategy based on those interests The book details hundreds of

opportunities available to make kids stand out that most high school guidance counselors and teachers simply don't know about or don't think to share This indispensable guide should be required reading for any parent whose child dreams of attending one of the country's top colleges *Sterling's College Admission Survival Guide Senior Year* Stephen Charles Sterling, Dorothy Roman Sterling, 2006-05 *Sterling's College Admission Survival Guide* is the college and university guide for understanding the entire college admission process **The Parent Trap** Nate G. Hilger, 2023-04-04 How parents have been set up to fail and why helping them succeed is the key to achieving a fair and prosperous society Few people realize that raising children is the single largest industry in the United States Yet this vital work receives little political support and its primary workers parents labor in isolation If they ask for help they are made to feel inadequate there is no centralized organization to represent their interests and there is virtually nothing spent on research and development to help them achieve their goals It's almost as if parents are set up to fail and the result is lost opportunities that limit children's success and make us all worse off In *The Parent Trap* Nate Hilger combines cutting edge social science research revealing historical case studies and on the ground investigation to recast parenting as the hidden crucible of inequality Parents are expected not only to care for their children but to help them develop the skills they will need to thrive in today's socioeconomic reality but most parents including even the most caring parents on the planet are not trained in skill development and lack the resources to get help How do we fix this The solution Hilger argues is to ask less of parents not more America should consider child development a public investment with a monumental payoff We need a program like Medicare call it Familycare to drive this investment To make it happen parents need to organize to wield their political power on behalf of children who will always be the largest bloc of disenfranchised people in this country *The Parent Trap* exposes the true costs of our society's unrealistic expectations around parenting and lays out a profoundly hopeful blueprint for reform

modelling and comparison analysis of grid connected - Jun 02 2023

web abstract this paper presents the modeling and simulation of the doubly fed induction generator dfig for electric power generation from wind energy conversion system

dfig modeling and control in a wind energy conversion system - Oct 14 2021

web this paper presents the model and simulation of doubly fed induction generator dfig based on wind energy conversion system it consists of wind turbine drive train dfig

mathematical modelling and simulation of the dfig based wind - Feb 27 2023

web sep 1 2020 the dfig model is simulated along with the wind turbine model as well as the rotor side controller and the grid side converter using the average model of the

impedance model and characteristics analysis of dfig based - Jan 17 2022

web oct 31 2023 this paper presents an equivalent modeling method for the ac dc power networks with doubly fed induction generator dfig based wind farms to decrease the

multi scale modeling and simulation of dfig based wind energy - Aug 04 2023

web sep 9 2012 abstract doubly fed induction generator dfig has become the most widely applied wind turbine in variable speed constant frequency vscf wind power

implementation of simplified models of dfig based wind - Aug 24 2022

web abstract this paper presents an analysis and control design of a doubly fed induction generator dfig based wind generation system operating under unbalanced network

efficient modeling of dfig and fsc based wind turbines for - Sep 12 2021

web apr 26 2023 the present inaccurate fault current calculation due to the incomplete consideration of whole process operation stages of fault ride through firt of dfig

modeling and simulation of a dfig based wind energy system - Sep 05 2023
