O Level Islamiat Paper 2012:

Arabic Instruction in Israel Allon Uhlmann, 2017-07-10 In *Arabic Instruction in Israel* Allon J Uhlmann confronts two conundrums namely the persistently poor level of Arabic proficiency among Jewish Arabic students and teachers and the traumatic alienation of Arab students by university Arabic grammar instruction These are not aberrations but rather direct albeit unintended systemic consequences of the field of Arabic instruction where Jewish students encounter Arabic as a dead hostile language Jewish hegemony devalues native Arabic proficiency and Arab students are locked into a fractured educational trajectory encountering two alienating and mutually unintelligible grammars of Arabic at school and at university By tracing systemic variabilities in cognition and learning Uhlmann exposes hitherto misrecognised dynamics that hinder Arabic instruction in Israel thereby offering new avenues for possible change *The OIC, the UN, and Counter-Terrorism Law-Making* Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter terrorism enterprise over many decades and which accelerated markedly after 9 11 The scope of the book is ambitious its subject matter is complex and its sources are many and diverse Dr Samuel has deployed an appropriate theoretical and empirical methodology harnessed an intricate knowledge of the field and brought a balanced judgement to bear to bring these issues to life *Why the West Fears Islam* J.
