argues that the most productive uses of the material power to judge or reward are those that reinforce royal authority and establish the monarch at the centre of the web of noble relationships In the late tragedies rulership is exercised at court It acquires a nature of its own as the interaction of powerful and potentially powerful individuals among the nobility The persuasive exercise of authority complements the tangible power that is founded on the monarch s material resources so that consent to the monarch s supremacy is obtained through various discourses of justification and the performance of the monarch s social role Shakespeare s combination of emotional intimacy with political concerns becomes central to the tragedies of these three plays when the failure to establish control over power and authority leads to the breakdown of established values and political traditions *Selections from English Literature* Leonidas Warren Payne,Nina Hill,1922
