gynecologist Magnus Murphy MD and journalist advocate Pauline McDonagh Hull offer a compelling case for surgical delivery as a legitimate birth choice for informed women By offering a wealth of medical evidence from around the world and thoughtfully countering the many objections detractors have lodged against it the authors convincingly demonstrate that a planned cesarean birth at thirty nine plus weeks is a safe and often preferred alternative to a planned vaginal delivery An indispensable guide for women their families and medical professionals Women's Fitness Program Development Ann F.

Cowlin,2002 Meet the unique needs of all females young and old in health and fitness settings Women s Fitness Program Developmentintroduces a groundbreaking model for women s health and fitness Build a solid theoretical basis for girls and women s health and fitness programming Develop programs that take into account how females see the world Find touchstones that motivate clients to achieve a lifetime of fitness Design your classes around women s physical psychological social and emotional needs Learn about appropriate exercises and positions for females at different life stages Written by a fitness expert with more than 30 years experience teaching dance and exercise to girls and women this book is thoughtful research based and packed with insight It is a practical resource for instructors trainers health care providers any

professional working with girls and women in a health and fitness setting Women's Fitness Program Development is divided into four sections: Adolescence, Pregnancy, Postpartum, Period, and Menopause. Each section defines terminology, suggests how to set goals and priorities, and provides appropriate exercise components, prescriptions, modifications, and program evaluation strategies. The text includes the following special features: 60 photos illustrating appropriate exercises and positions for different life stages; Instructions for female-focused exercises such as strengthening the pelvic floor and centering the body; Sidebars with practical instructional tips; 30 forms for screening, assessment, participant worksheets, evaluation, and other program needs; Examples from current programs focused on girls and women. Ann Cowlin provides information relevant to all stages of the female life cycle. She includes a 10-week creative physical activity curriculum for adolescent girls, detailed explanations of contraindications for exercise and conditions requiring assessment, and warning signs in pregnancy, plus exercise guidelines for pregnant women. Cowlin also includes insightful ideas for working with pregnant and parenting adolescent girls. She addresses approaches for dealing with physical conditions resulting from pregnancy, birth, and the extended postpartum period, and she offers sample group fitness sessions for midlife women.
