

Of Mice and Men Research Topics

Similar to the research papers that were written for *Animal Farm* by George Orwell, each student will complete a miniature research paper on *Of Mice and Men* by John Steinbeck.

Requirements

Each student should write an essay of *less than two pages*, following standard MLA format as we discussed in class.

Your paper should include a works cited page that is to include *at least two* sources.

For each sources that you provide in the works cited, you should have *at least one* direct quotation or paraphrase from that source.

Be sure to proper cite all sources using in-text citations. If you use the words of others, either directly, or by rephrasing them into your own language, you must provide a citation – if you do not, it will be labeled as plagiarism, which will result in a zero on the paper and an Honor Code referral.

Your paper will be due on **Wednesday, September 26**. You may submit your paper in class or electronically by 11:59 P.M.

Grading

Your paper will be graded using the same rubric as the previous research paper, which can be found online under the *Of Mice and Men* entry on Classroom Connections.

Of Mice And Men Research Papers:

Of Mice, Models, and Men Andrew N. Rowan, 1984-01-01 Too much emotion and insufficient fact This paradox has long characterized the controversy surrounding animal research *Of Mice Models and Men* is the first exhaustive treatment of all areas empirical and conceptual relevant to the use of animals in research It is also the first study to combine regard for the welfare of laboratory animals with a knowledgeable acceptance of the continuing need for research involving animals The book has another rare quality It is virtually devoid of any of the emotional and exaggerated attacks that have characterized many of the other publications in this area Instead it presents in a manner accessible to both sides all the relevant historical social and scientific information required to form an opinion on the subject The book thus achieves a most difficult goal that of bridging the gap between researchers using animals and animal welfare advocates while pointing out the need for a more active program to promote laboratory animal welfare
