Democracy Against Parties

Brandon Van Dyck, 2021-09-21 Around the world established parties are weakening and new parties are failing to take root In many cases outsiders have risen and filled the void posing a threat to democracy Why do most new parties fail Under what conditions do they survive and become long term electoral fixtures Brandon Van Dyck investigates these questions in the context of the contemporary Latin American left He argues that stable parties are not an outgrowth of democracy On the contrary contemporary democracy impedes successful party building To construct a durable party elites must invest time and labor and they must share power with activists Because today s elites have access to party substitutes like mass media they can win votes without making such sacrifices in time labor and autonomy Only under conditions of soft authoritarianism do office seeking elites have a strong electoral incentive to invest in party building Van Dyck illustrates this argument through a comparative analysis of four new left parties in Latin America two that collapsed and two that survived

Papers ,1919 **Muslims and Political Participation in Britain** Timothy Peace,2015-05-01 This new volume showcases the latest research into Muslim political participation both in terms of electoral politics and civil society initiatives Muslims play a prominent role in British political life yet what do we actually know about the involvement of British Muslims beyond the existence of a handful of Muslim MPs What is unique about political participation in Muslim communities All the major parties actively seek to court a Muslim electorate but does such a phenomenon exist Despite the impact that Muslims have had on election campaigns and their roles in various political institutions research on this topic remains scant Indeed much of the existing work was couched within the broader areas of the participation of ethnic minorities or the impact of race on electoral politics The chapters in
