User Guide for MicroStrategy 10 MicroStrategy Product Manuals,2015-06-04 Addiction Paul Davis,Robert Patton,Sue Jackson,2017-07-24 Addiction Psychology and Treatment brings together leading psychologists to provide a comprehensive overview of the psychology of addictions and their treatment across specialities and types of services Emphasises the use of several approaches including CBT psychodynamic and systemic and family treatments and consideration of the wider picture of addictions As well as the theories gives a clear overview of the application of these models Reflects the very latest developments in the role played by psychological perspectives and interventions in the recovery agenda for problem drug and alcohol users **Inside Immigration Detention** Mary Bosworth,2014-09-18 On any given day nearly 3000 foreign national citizens are detained under immigration powers in UK detention centres alone Around the world immigrants are routinely detained in similar conditions The institutions charged with immigrant detention are volatile and contested sites They are also places about which we know very little What is their goal How do they operate How are they justified Inside Immigration Detention lifts the lid on the hidden world of migrant detention presenting the first national study of life in British immigration removal centres Offering more than just a description of life behind bars of those men and women awaiting deportation it uses staff and detainee testimonies to revisit key assumptions about state power and the legacies of colonialism under conditions of globalization Based on fieldwork conducted in six immigration removal centres IRCs between 2009 and 2012 it draws together a large amount of empirical data including detainee surveys and interviews staff interviews observation and detailed field notes From this the book explores how immigration removal centres identify their inhabitants as strangers constructing them as unfamiliar ambiguous and uncertain In this endeavour the establishments are greatly assisted by their resemblance to prisons and by familiar racialized narratives about foreigners and nationality However as staff and detainee testimonies reveal in their interactions and day to day life women and men find many points of commonality Such recognition of one another reveals the goal and effect of detention to be incomplete Denial requires effort In order to minimize the effort it must expend the state governs at distance via the contract It also splits itself in two deploying some immigration staff onsite while keeping the actual decision makers the caseworkers elsewhere sequestered from the potentially destabilizing effects of facing up to those whom they wish to remove Such distancing while bureaucratically effective contributes to the uncertainty of daily life in detention and is often the source of considerable criticism and unease Denial and familiarity are embodied and localized activities whose pains and contradictions inhere in concrete relationships Public Investment Management Reference Guide Jay-Hyung Kim,Jonas Arp Fallov,Simon Groom,2020-03-03 The Public Investment Management PIM Reference Guide aims to convey country experiences and good international practices as a basis for decisions on how to address a country specific PIM reform agenda The country

references are drawn largely from previous diagnostics and technical assistance reports of the World Bank The application of country diagnostics and assessments has revealed a need to address the following issues when undertaking a country reform in PIM Clarification of the definition and scope of public investment and public investment management Establishment of a sound legal regulatory and institutional setting for PIM making sure it is linked to the budget process Allocation of roles and responsibilities for key players in PIM across government Strengthening of guidance on project preappraisal appraisal and selection prioritization procedures and deepening of project appraisal methodologies Integration of strategic planning project appraisal selection and capital budgeting Management of multiyear capital budget allocations and commitments Efforts to address effective implementation procurement and monitoring of projects Strengthening of asset management and ex post evaluation Integration of PIM and public private partnership PPP in a unified framework Rationalization and prioritization of the existing PIM project portfolio Development of a PIM database and information technology in the form of a PIM information system The PIM Reference Guide does not seek to provide definitive answers or standard guidance for the common PIM issues facing countries Nor does it seek to provide a detailed template for replication across countries this would be impossible given the diversity of country situations Instead each chapter begins with an overview of the specific reform issue lists approaches and experiences from different countries and summarizes the references and good practices to be considered in designing country specific reform actions

Fair and Equitable Benefit-sharing in International Law Elisa Morgera, 2024-04-24 Fair and equitable benefit sharing is a diffuse legal phenomenon in international law The continued proliferation of benefit sharing clauses can be explained by their appeal as an optimistic frame in addressing sustainability and equity concerns related to bio based innovation the use of natural resources environmental protection and knowledge creation In principle fair and equitable benefit sharing serves to recognize encourage and incentivise sustainable human relationships with the environment by focusing on equity issues arising from the most intractable challenges of our time such as loss of biodiversity climate change poverty and global epidemics Empirical evidence however indicates that in practice benefit sharing rarely achieves its fairness and equity objectives and ends up entrenching or worsening inequitable relationships with little to no benefit for the environment Instead of focusing on fair and equitable benefit sharing in sub specialist areas of international law in isolation Elisa Morgera assesses the phenomenon from a general international law perspective and through comparison across international environmental law international human rights law international health law and the law of the sea Strengthened by insights from local level case studies in different regions and sectors this book looks toward overcoming the limitations inherent in individual international regimes and addressing the shortcomings in benefit sharing implementation Morgera's topical and comprehensive analysis reveals opportunities to advance fairness and equity in benefit sharing through a mutually supportive interpretation of international biodiversity law and international human rights law as well as opportunities to contribute to future research in areas such as international health law international law on outer space and international economic law This is an open access title It is made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 International licence It is available to read and download as a PDF version on the Oxford Academic platform
