Simoes, Gustavo Dalmarco, 2025-02-18 This proceedings volume contains selected papers from the 33rd International Association for Management of Technology IAMOT Conference held from July 8-11, 2024 in Porto, Portugal. It is the second volume of a three-volume set of conference proceedings focused on technologies for a sustainable future. The book explores the challenges and opportunities in today's social and business landscapes, delving into innovative and disruptive concepts. With a special emphasis on the role of technologies, it sheds light on how they enable novel approaches to address current issues. The volume demonstrates that following the principles of Industry 5.0, technologies can go far beyond productivity and economic gains, contributing to the benefit and comfort of human workers. It also elucidates the necessity of adopting a human-centered approach in utilizing technology to adapt production processes to workers' needs while ensuring that the implementation of new technologies does not infringe upon the fundamental rights of workers. **Comprehensive Energy Law and Management**

Ali Mohammadi, 2024-01-17 This book is an essential guide for practitioners of international law and management, exploring the intersection of energy law, public international law, and environmental law. From the perspective of international law to the development of public international law and the legislation that governs it, this book provides a comprehensive analysis of the complexities surrounding international energy law. Various sources of energy and their types, including fossil fuels, nuclear energy, and alternative renewable energies such as solar, wind, and biomass, are discussed. Discovering the environmental effects of all sources and the role of alternative renewable energies on the course of sustainable development and examination of the principles of permanent sovereignty over natural resources and the necessity of communication during environmental emergencies and their relationship with international energy law are discussed. With insights into energy economics, energy diplomacy, energy policy, energy management, and dispute settlement under the Energy Charter Treaty, this book provides a holistic view of energy law and management. *21st Century Geography*
