the Government must clarify the certification requirements for such proceedings The creation of rights and remedies for digital content is welcome but the Government must do more to communicate how the proposals will work in practice Under the draft Bill the remedies available to consumers of digital content would depend on whether the content is intangible such as a music download or tangible such as a CD In appropriate circumstances consumers should have the right to reject and obtain a refund irrespective of whether they purchase intangible or tangible digital content      **Trackman** Arco Publishing Company,1947      **Everything You Need to Know about Being a Legal Assistant** Chere B.
