For instance, the rapid and uneven body development determines enhanced gross and fine motor skills and biological maturity. In addition, several authors state that both sexes experiment growth spurts, however they occur earlier in girls than in boys (Brown, D., & Knowles, T., 2007; Caskey, M., & Anfara, V., 2007). Such characteristics like accelerated growing of bones compared to muscle changes makes teenagers sometimes be uncoordinated and clumsy. In fact, the adolescents' developmental growth also includes significant increases in height, weight, and internal organ sizes as well as changes in skeletal and muscular systems. This rapid growth could give teenagers a feeling of discomfort and pain due to body development (Caskey, M., & Anfara, V., 2007). There is an increase in the nutritional needs and lethargy due to the hormonal work. Alternatively, adolescents need 9 hours and 15 minutes of sleep every day (Brown, D., & Knowles, T., 2007). Middle Schools Work Jon Wiles,Joseph Bondi,1986 Over the past 20 years the middle school has been a major innovative
movement changing the face of intermediate education While hard to define exactly middle schools have different priorities
and purposes than junior high schools The former serve preadolescents ages 10 to 14 through a balanced comprehensive
program Middle school programs need clear definition and constant reevaluation to monitor program effectiveness and

prevent slippage Success depends heavily on sound curriculum development and management This report describes the Wiles Bondi Curriculum Management Plan CMP which draws from the work of Tyler and Taba and the widely used accreditation process format The CMP introduces regularity into the change process by superimposing a management schemata over the curriculum development framework and forcing values clarification and commitment along the way Establishing goals assessing needs and determining priorities are essential steps The model is based on several key points involving school staff administrators and parents directing change from the top basing decisions on hard data and driving change by evaluation and accountability Developing an effective management team is a must The standard curriculum development cycle of analysis design implementation and evaluation is bolstered by the CMP routine Procedures are amply illustrated by 33 figures and 4 appendices that include sample survey forms two articles on adolescents and a list of selected teacher competencies MLH **The Princeton Theological Review** ,1921 Includes section Reviews of recent literature
