Remaking Boston Anthony N. Penna, Conrad E. Wright, 2009-12-26 Since its settlement in 1630

Boston its harbor and outlying regions have witnessed a monumental transformation at the hands of humans and by nature Remaking Boston chronicles many of the events that altered the physical landscape of Boston while also offering multidisciplinary perspectives on the environmental history of one of America s oldest and largest metropolitan areas Situated on an isthmus and blessed with a natural deepwater harbor and ocean access Boston became an important early trade hub with Europe and the world As its population and economy grew developers extended the city s shoreline into the surrounding tidal mudflats to create more useable land Further expansion of the city was achieved through the annexation of surrounding communities and the burgeoning population and economy spread to outlying areas The interconnection of city and suburb opened the floodgates to increased commerce services and workforces while also leaving a wake of roads rails bridges buildings deforestation and pollution Profiling this ever changing environment the contributors tackle a variety of topics including the glacial formation of the region physical characteristics and composition of the land and harbor dredging sea walling flattening and landfill operations in the reshaping of the Shawmut Peninsula the longstanding controversy over the link between landfills and shoaling in shipping channels population movements between the city and suburbs and their environmental implications interdependence of the city and its suburbs preservation and reclamation of the Charles River suburban deforestation and later reforestation as byproducts of changing land use the planned outlay of parks and parkways and historic climate changes and the human and biological adaptations to them *Art in Doubt* Tatyana

Gershkovich,2022-10-15 Leo Tolstoy s and Vladimir Nabokov s radically opposed aesthetic worldviews emanate from a shared intuition that approaching a text skeptically is easy but trusting it is hard Two figures central to the Russian literary tradition Tolstoy the moralist and Nabokov the aesthete seem to have sharply conflicting ideas about the purpose of literature Tatyana Gershkovich undermines this familiar opposition by identifying a shared fear at the root of their seemingly antithetical aesthetics that one s experience of the world might be entirely one s own private and impossible to share through art *Art in Doubt* Tolstoy Nabokov and the Problem of Other Minds reconceives the pair s celebrated fiction and contentious theorizing as coherent lifelong efforts to reckon with the problem of other people s minds Gershkovich demonstrates how the authors shared yearning for an impossibly intimate knowledge of others formed and deformed their fiction and brought them through parallel logic to their rival late styles Tolstoy s rustic simplicity and Nabokov s baroque complexity Unlike those authors for whom the skeptical predicament ends in absurdity or despair Tolstoy and Nabokov both hold out hope that skepticism can be overcome not by force of will but with the right kind of text one designed to withstand our impulse to doubt it Through close readings of key canonical works *Anna Karenina* *The Kreutzer Sonata* *Hadji Murat* *The Gift* *Pale Fire* this book brings the twin titans of Russian fiction to bear on contemporary debates about how we read now and how we ought to **Britain and the Dhofar War in Oman, 1963-1976** Geraint Hughes,2024-03-16 This book explores Britain s

involvement in the Dhofar War of 1963 1976 focusing on the military aspects of this conflict in Southern Oman It reveals how

both the Conservative and Labour governments in office during this time provided military and security assistance to Oman's rulers without parliamentary or press scrutiny. Based on archival material and witness accounts as well as existing secondary source literature and memoirs, this study provides new insights into Britain's clandestine embroilment in the Dhofar War, an often overlooked but historically significant intervention in the Middle East. This book will be a valuable resource for scholars and students interested in the complex and often controversial history of Britain's involvement in Middle Eastern politics in the post-colonial period.

Liberty Power Corey M. Brooks, 2016-01-14 Abraham Lincoln's Republican Party was the first party built on opposition to slavery to win on the national stage, but its victory was rooted in the earlier efforts of underappreciated antislavery third parties. *Liberty Power* tells the story of how abolitionist activists built the most transformative third party movement in American history and effectively reshaped political structures in the decades leading up to the Civil War. As Corey M. Brooks explains, abolitionist trailblazers who organized first the Liberty Party and later the more moderate Free Soil Party confronted formidable opposition from a two party system expressly constructed to suppress disputes over slavery. Identifying the Whigs and Democrats as the mainstays of the southern Slave Power's national supremacy, savvy abolitionists insisted that only a party independent of slaveholder influence could wrest the federal government from its grip. A series of shrewd electoral lobbying and legislative tactics enabled these antislavery third parties to wield influence far beyond their numbers. In the process, these parties transformed the national political debate and laid the groundwork for the success of the Republican Party and the end of American slavery.

Mastering Accounting Research for the CPA Exam Anita L. Feller, 2008-06-02 STUDY AIDS CPA Certified Public Accountant The first CPA review product of its kind to address the three research components of the CPA Exam. You're a CPA Exam candidate. You've survived all those technical accounting courses and advanced courses on systems, auditing, cost accounting, and tax, and now you're ready to take the big exam. But perhaps in those intermediate or advanced courses you didn't receive enough exposure to research in the accounting standards, the auditing standards, or the tax code. Help has arrived. Now in a fully revised second edition, *Mastering Accounting Research for the CPA Exam* provides CPA candidates with a thorough foundation of the authoritative literature, knowledge of the standards, and strategies for researching the infobases for FAR (Financial Accounting and Reporting), AUD (Audit and Attestation), and REG (Regulation). Easy to follow and apply, the new edition of this concise, user-friendly guide brings CPA Exam candidates up to speed quickly on the research component of the Exam and updates all references to Web addresses and information on obtaining infobases. Informs readers on changes to accounting standards. Helps students review on the spot with quick study lists for FAR, AUD, and REG. Offers new coverage and discussion of FAS 155-159. Includes new practice review problems at the end of each chapter. Without over your head technical jargon, author and CPA Anita Feller clearly explains and illustrates the research strategies for FAR, AUD, and REG that every CPA Exam candidate needs to ace the simulation sections of the CPA Exam.

Love and the Working Class Karen Lystra, 2024 *Love and the Working Class* is a

unique look at the emotions of hard living racially diverse nineteenth century Americans who were often on the cusp of literacy. Wrongly assumed to be inarticulate on paper, these laboring folk highly valued letters and however difficult it was, wrote to stay connected to those they loved. *Oppenheimer* Charles Thorpe, 2008-09-15. At a time when the Manhattan Project was synonymous with large scale science, physicist J. Robert Oppenheimer, 1904-67, represented the new sociocultural power of the American intellectual. Catapulted to fame as director of the Los Alamos atomic weapons laboratory, Oppenheimer occupied a key position in the compact between science and the state that developed out of World War II. By tracing the making and unmaking of Oppenheimer's wartime and postwar scientific identity, Charles Thorpe illustrates the struggles over the role of the scientist in relation to nuclear weapons, the state, and culture. A stylish intellectual biography, *Oppenheimer* maps out changes in the roles of scientists and intellectuals in twentieth century America, ultimately revealing transformations in Oppenheimer's persona that coincided with changing attitudes toward science in society. This is an outstandingly well researched book, a pleasure to read, and distinguished by the high quality of its observations and judgments. It will be of special interest to scholars of modern history, but non-specialist readers will enjoy the clarity that Thorpe brings to common misunderstandings about his subject. Graham Farmelo, *Times Higher Education Supplement*. A fascinating new perspective. Thorpe's book provides the best perspective yet for understanding Oppenheimer's Los Alamos years, which were critical after all, not only to his life, but for better or worse, the history of mankind. Catherine Westfall, *Nature Journal of Education*, 1895.

Emerson and the Art of the Diary Lawrence Alan Rosenwald, 1988. An extended literary description and analysis of Emerson's journals, which argues that these works constitute one of the greatest commentaries on 19th century America, realizing Emerson's standards of literary excellence more fully than his other writings. *The Expressionist Turn in Art History* Kimberly A. Smith, 2017-07-05. During the period in which Expressionist artists were active in central Europe, art historians were producing texts which also began to be characterized evocatively as expressionist, yet the notion of an expressionist art history has yet to be fully explored in historiographic studies of the discipline. This anthology offers a cross section of noteworthy art history texts that have been described as expressionist, along with critical commentaries by an international group of scholars. Written between 1912 and 1933, the primary sources have been selected from the published scholarship of both recognized and less familiar figures in the field's Germanic tradition: Wilhelm Worringer, Fritz Burger, Ernst Heidrich, Max Dvor, Heinrich W. Ifflin, and Carl Einstein. Translated here for the first time, these examples of an expressionist turn in art history, along with their secondary analyses and the book's introduction, offer a productive lens through which to re-examine the practice and theory of art history in the early twentieth century. **Across the Great Divide** Matthew Basso, Laura McCall, Dee Garceau, 2013-10-18. In *Across the Great Divide*, some of our leading historians look to both the history of masculinity in the West and to the ways that this experience has been represented in movies, popular music, dime-store novels, and folklore. **Macropolitics of Nineteenth-Century Literature** Jonathan

Arac, Harriet Ritvo, 2016-11-11 In contrast to the micropolitics of Foucault macropolitics emphasizes that political transformations at the level of the state have great importance for many developments in nineteenth century writing

Buried Lives Michele Lise Tarter, Richard Bell, 2012 Buried Lives offers the first critical examination of the experience of imprisonment in early America These interdisciplinary essays investigate several carceral institutions to show how confinement shaped identity politics and the social imaginary both in the colonies and in the new nation The historians and literary scholars included in this volume offer a complement and corrective to conventional understandings of incarceration that privilege the intentions of those in power over the experiences of prisoners Considering such varied settings as jails penitentiaries almshouses workhouses floating prison ships and plantations the contributors reconstruct the struggles of people imprisoned in locations from Antigua to Boston The essays draw upon a rich array of archival sources from the seventeenth century to the eve of the Civil War including warden logs petitions execution sermons physicians clinical notes private letters newspaper articles runaway slave advertisements and legal documents Through the voices bodies and texts of the incarcerated Buried Lives reveals the largely ignored experiences of inmates who contested their subjection to regimes of power

Making the "America of Art" Naomi Z. Sofer, 2005 Making the America of Art demonstrates that beginning in the 1850s women writers challenged the terms of the Scottish Common Sense philosophy which had made artistic endeavors acceptable in the new Republic by subordinating aesthetic motivation to moral and educational goals Harriet Beecher Stowe and Augusta Jane Evans drew on Ruskin to argue for the creation of a religiously based national aesthetic In the postbellum years Louisa May Alcott Rebecca Harding Davis Elizabeth Stuart Phelps and Constance Fenimore Woolson continued the process in a series of writings that revolved around three central areas of concern the place of the popular in the realm of high art the role of the genius and the legacy of the Civil War Sofer significantly revises the history of 19th century American women's authorship by detailing the gradual process that produced women writers wholly identified with literary high culture at the century's end BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Resisting Napoleon Mark Philp, 2016-12-05 The long war with Revolutionary France had a fundamental impact on British political culture The most dramatic example of this is the mass mobilisation of the British people in response to French invasion threats throughout the last years of the century but most spectacularly in the period 1803-5 after the collapse of the Peace of Amiens and the massing of an invasion fleet by Napoleon The preparations for the threatened invasion had many dimensions including military and naval mobilization the development of defensive earthworks and fortifications on the British Coast the surveillance and monitoring of radicals identified with the French cause the incitement of loyalist sentiment through caricature newspapers tracts and broadsides and loyalist songs and the construction of Napoleon as the prime enemy of British interests Although aspects of these issues have been studied this book is the first time that they have been brought together systematically By bringing together historians of Britain and France to examine

the dynamics of the military conflict between the two nations in this period this book measures its impact on their domestic political cultures and its effect on their perceptions of each other In so doing it will encourage scholars to further examine aspects of popular mobilisation which have hitherto been largely ignored such as the resurgence of loyalism in 1803 and to see their contributions in the light of the dual contexts of domestic political conflict and their war with each other By allowing scholars to focus their attention on this period of heightened tension the book contributes both new detail to our understanding of the period and a better overall understanding of the complex place which each nation came to occupy in the consciousness of the other

My Way John Martin Fischer,2006-03-02 This is a selection of essays on moral responsibility that represent the major components of John Martin Fischer's overall approach to freedom of the will and moral responsibility The collection exhibits the overall structure of Fischer's view and shows how the various elements fit together to form a comprehensive framework for analyzing free will and moral responsibility The topics include deliberation and practical reasoning freedom of the will freedom of action various notions of control and moral accountability The essays seek to provide a foundation for our practices of holding each other and ourselves morally and legally accountable for our behavior A crucial move is the distinction between two kinds of control According to Fischer regulative control involves freedom to choose and do otherwise alternative possibilities whereas guidance control does not Fischer contends that guidance control is all the freedom we need to be morally responsible agents Further he contends that such control is fully compatible with causal determinism Additionally Fischer argues that we do not need genuine access to alternative possibilities in order for there to be a legitimate point to practical reasoning Fischer's overall framework contains an argument for the contention that guidance control and not regulative control is associated with moral responsibility a sketch of a comprehensive theory of moral responsibility that ties together responsibility for actions omissions consequences and character and an account of the value of moral responsibility On this account the value of exhibiting freedom of the relevant sort and thus being morally responsible for one's behavior is a species of the value of artistic self expression
