so materially from those in general use in England that a word of explanation in regard to them seems advisable For such barbarous pronunciations as Thoutmes Ahmes Rausorma I have substituted thoutmosis ahmosis Ousimar s a vocalization nearer that of the ancient pronunciation Some of the vowel sounds I like those Of the three names just quoted are derived from the Greeks or from the Egyptians Of the græco roman period others are deduced by analogy with Greek transcriptions from forms the exact transliteration Of which has not been preserved for us by the ancients The reader will easily recognize the former in those where I have kept the Greek or Latin terminations es as or am where those terminations are wanting the form is deduced by analogy or determined in accordance with the rules Of grammar Thus amenoth s amenhotep Khamois kha em uas Harmakhis hor em Khou are pronunciations justified by the Greek renderings Amenemhait amenemhat Hatshopsouitou hatasou Hashepsou are grammatical deductions Many points are still doubtful and some of the vowel sounds will have to be modified in the future but they have at least the merit Of testifying to an effort towards the truth and Of undeceiving the public who on the faith of the Egyptologists accept as legitimate pronunciations which would have been considered monstrous by the Egyptians themselves About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
