Newsletter | Summer Principal's message

Wow! The school year ended with a flurry of activity (and unfortunately, rain and flooding). Now the flurry turns (at least momentarily) to preparing for next year. Staff will be in the building June 28, closing out this year and preparing for the next. In the midst of this harrowed frenzy we call year-end, we enjoyed a number of "together moments" ranging from our one "Touch of Class" talent show, to our revised grade six farewell, to each of us pulling together amidst the devastation and damage to hit our city. Each time, for a wide array of reasons, the school came together to celebrate our year, and each time, a bond of community permeated each event. Relationship seemed to be a common theme at each and is a critical part of our school's continued success.

I would like to extend formal congratulations to all of the students in grade six as they move onto grade seven. It is always a challenge saying farewell to a departing class, however this year's grade six class left an especially wonderful and memorable mark on our school through events such as We Day and their own version of Mini-We Day, as well as performances at our spring concert and Off the Wall. On behalf of all students and staff, I wish them continued success in their educational journey en route to becoming the graduating class of 2019.

To all students and families, thank you for an incredibly successful year. As my first at Sunalta, bearing witness to the remarkable achievement, citizenship, and character within these hallowed walls, surpassed my already high expectations. Have a wonderful and safe summer and we look forward to seeing you on September 3.

Trevor Barkley, Principal (tbarkley@cbe.ab.ca)

Critical Reflections on Teacher Education Howard Woodhouse,2022-09-28 Critical Reflections on Teacher Education argues that educational philosophy can improve the quality of teacher education programs in Canada the United States and the United Kingdom The book documents the ways in which the market model of education propagated by governments and outside agencies hastens the decline of philosophy of education and turns teachers into technicians in hierarchical school systems A grounding in educational philosophy however enables future teachers to make informed and qualified judgements defining their professional lives In a clear and accessible style Howard Woodhouse uses a combination of reasoned argument and narrative to show that educational philosophy together with Indigenous knowledge systems forms the basis of a climate change education capable of educating future teachers and their students about the central issue of our time AAUP

Oil's Deep State Kevin Taft, 2017-10-06 Why have democratic governments failed to take serious steps to reduce carbon emissions despite dire warnings and compelling evidence of the profound and growing threat posed by global warming Most of the writing on global warming is by scientists academics environmentalists and journalists Kevin Taft a former leader of the opposition in Alberta brings a fresh perspective through the insight he gained as an elected politician who had an insider s eyewitness view of the role of the oil industry His answer in brief The oil industry has captured key democratic institutions in both Alberta and Ottawa Taft begins his book with a perceptive observer s account of a recent court case in Ottawa which laid bare the tactics and techniques of the industry its insiders and lobbyists He casts dramatic new light on exactly how corporate lobbyists politicians bureaucrats universities and other organizations are working together to pursue the oil industry s agenda He offers a brisk tour of the recent work of scholars who have developed the concepts of the deep state and institutional capture to understand how one rich industry can override the public interest Taft views global warming and weakened democracy as two symptoms of the same problem the loss of democratic institutions to corporate influence and control He sees citizen engagement and direct action by the public as the only response that can unravel big oil s deep state

1% a class of corporate owners managers and bankers who amass wealth by controlling the large corporations at the core of the economy But corporate power also reaches into civil society and politics in many ways that greatly constrain democracy In *Organizing the 1%* William K Carroll and J P Sapinski provide a unique evidence based perspective on corporate power in Canada and illustrate the various ways it directs and shapes economic political and cultural life A highly accessible introduction to Marxist political economy Carroll and Sapinski delve into the capitalist economic system at the root of corporate wealth and power and analyze the ways the capitalist class dominates over contemporary Canadian society The authors illustrate how corporate power perpetuates inequality and injustice They follow the development of corporate power through Canadian history from its roots in settler colonialism and the dispossession of Indigenous peoples from their land to the concentration of capital into giant corporations in the late nineteenth century More recently capitalist globalization and the consolidation of a market driven neoliberal regime have dramatically enhanced corporate power while exacerbating social and economic inequalities The result is our current oligarchic order where power is concentrated in a few corporations that are controlled by the super wealthy and organized into a cohesive corporate elite Finally Carroll and Sapinski offer possibilities for placing corporate power where it actually belongs in the dustbin of history
