their country and absolutely independent of political or other outside control The omission of the names of certain newspapers of large circulation may be noted but in leaving them off I have exercised my own privilege of not assisting them in their general policy of destruction of what is best in society industry and our American democracy and freedom The advertiser can make every dollar of his investment do a full 100 cents worth of execution which is impossible when he is forced to buy general medium circulation much of which is in territory unrelated and distant from the field he most desires to stimulate The manufacturer can make his advertising in daily newspapers lead directly to the shops of local dealers

and how to do it Through his initiative a steam press was installed and the first copper faced type ever used by an Illinois newspaper was bought He had an abiding dis taste for the other irons in the fire and that was and is good for this newspaper Alas the great Hippolyte Taine once said there are writers who were born to write newspaper articles and who write only books Joseph Medill was not that kind of a journalist His product was not indifferent books but great journalism He believed that to prepare to inspire and daily to assemble excellent newspaper articles was a grand work which demanded all of skill and fortitude that good minds and honest hearts possessed Thus The Tribune got its real start with a growing town and an honest man who was also a man of vision About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
