BlackBerry® 8830 World Edition smartphone

## Before You Travel

**Activate your BlackBerry 8830 in the U.S. with voice and/or data service:**

Voice and/or data service must be enabled prior to travel. Before traveling be sure that you have placed and received a call and accessed data services, if needed while traveling. Service must first work on the nationwide Sprint Network before it will work while roaming.

**Enable your BlackBerry 8830 SIM card and request international voice and/or data capability:**

1. Chat with or email an international support rep by visiting [sprint.com/international](http://sprint.com/international) and clicking **Chat with us** or **Email us** or place a call to 1-888-226-7212, option 2
2. Request that your SIM card be activated
3. Specify that international voice and/or international data be enabled

**Check coverage, rates and features available for the location(s) you will visit:**

1. Visit [sprint.com/news](http://sprint.com/news)
2. Select a country and click **Search**
3. View features available in city list. Scroll through or select first letter of city name
4. The BlackBerry 8830 will operate where "Worldmode" displays

**Identify international calling codes for location(s) you will visit and location(s) you plan to call:**

To make an international call while traveling internationally you will need:

- > The international access code of the country you are traveling in
- > The country code for the country you are calling to
- > The phone number you are calling

**International access codes and country codes are available on [sprint.com/news](http://sprint.com/news) or access travel guide for the country you will be visiting:**

1. From [sprint.com/support](http://sprint.com/support), select **BlackBerry 8830** from device list
2. Select **Travel Tips** link
3. Select country you will be visiting for specific dialing and service details

**Set voicemail password:**

You must know your voicemail password to access voicemail outside of the U.S. If you do not know your password, you may reset it at [sprint.com](http://sprint.com)

1. Log in to **My Sprint**
2. Select **Settings & Passwords** at the bottom right-hand side of the page
3. Click **Voicemail Password**
4. Enter new password, re-enter and click **Submit**

**Texting:**

Your device will automatically be able to receive texts when traveling internationally. All texts received while traveling internationally are billed the same rate for the country you are traveling in, regardless of where the text is sent from. Check [sprint.com/news](http://sprint.com/news) for texting rates or check [sprint.com/support](http://sprint.com/support) (select your device) to prevent your device from receiving texts. You will need to enable your device

to send texts while roaming on GSM networks. Once the steps below are completed you will be able to send texts on any available network while traveling internationally; this process only needs to be completed once.

**To enable device for sending texts on GSM networks:**

1. Select the **Manage Connection** icon
2. Select **Mobile Network Options**
3. Highlight **Network Mode** tab at bottom of screen
4. Push in the trackball and scroll down to **GSM**
5. Push in the trackball again to select **GSM**
6. Select button to return to previous menu
7. Screen will prompt to select save changes made, highlight **Save** and push in trackball to confirm
8. Go to **Options > SMS Text**
9. In the **Service Center** field type +12819552999
10. Push in the trackball and select **Save**

*Note:* for "+" key, select the "G" key with the plus sign (+) above it. Once SMSC is entered it will not display.

Sending a text while traveling is identical to sending a text from home.

1. When sending a text to a U.S.-based number or to any number within the North American Numbering Plan<sup>SM</sup> simply enter the 10-digit number
2. When sending a text to a non-U.S.-based number, enter 011 then the country code and number
