**People of the Earth** W. Michael Gear, Kathleen O'Neal Gear, 2009-11-03 In the dawn of agriculture a young woman is caught between the love of two men who must have her and the vision given to her people long ago by the spirit of the wolf

**People of the Weeping Eye** W. Michael Gear, Kathleen O'Neal Gear, 2008-12-02 In this epic tale of survival set in Paleolithic America the authors of *People of the Nightland* take readers to the banks of the great Mississippi River more than one thousand years ago

*People of the Dream* Michael O. Emerson, 2010-12-16 It is sometimes said that the most segregated time of the week in the United States is Sunday morning Even as workplaces and public institutions such as the military have become racially integrated racial separation in Christian religious congregations is the norm And yet some congregations remain stubbornly racially mixed *People of the Dream* is the most complete study of this phenomenon ever undertaken Author Michael Emerson explores such questions as how do racially mixed congregations come together How are they sustained Who attends them how did they get there and what are their experiences Engagingly written the book enters the worlds of these congregations through national surveys and in depth studies of those attending racially mixed churches Data for the book was collected over seven years by the author and his research team It includes more than 2 500 telephone interviews hundreds of written surveys and extensive visits to mixed race congregations throughout the United States *People of the Dream* argues that multiracial congregations are bridge organizations that gather and facilitate cross racial friendships disproportionately housing people who have substantially more racially diverse social networks than do other Americans The book concludes that multiracial congregations and the people in them may be harbingers of racial change to come in the United States

*The Story of the Origins of the Bura/Pabir People of Northeast Nigeria* Ayuba Y. Mshelia, 2014 A Synopsis of the Bura Project The three major rationale for writing this book are primarily to through the study of African language family groups trace the origin of the tribe to a more specific location rather than the diffused response of from the East secondly to investigate why and how the word Pabir Babur came on the scene referring to a separate ethnic group different or the same as the Bura and thirdly to document some of the vanishing Bura cultural practices and deeds For example what their beliefs are their marriage practices local industries and what they do to pass time It is my strong belief that the first objective is accomplished through our analysis and presentation of the Proto Afro asiatic linguistic family classification group and its subgroup the Proto Chadic of which the Biu Mandara forms a sub branch

Through a systemic and vigorous study of the classification of the different languages comprising this Proto Family of languages and its sub branches we are able to assert that the Bura people were among many other ethnic groups part of a group whose origin can be traced to the Levant region of south west Asia and the Middle East They belong to the group that forms back to Africa migration This is because modern genetic studies of languages indicate that they re the only group that have traces of Y chromosome belonging to haplogroup R1b R V88 in Africa but found mainly in Asia and Europe After tracing the influences of the powerful Kanem ca 700 1376 and later Bornu Kanem 1380 1893 empires around the Lake Chad region as well as the kingdom of Mandara founded in about 1459 i e end of the 15th century in what is today modern Cameroon on the inhabitants of the region we conclude a chaotic period of migrations and wars including trade in slaves It is through this prism that we notice the emergence of the founder of the Woviri dynasty of Biu Through his failure to win the Maiship of Bornu he moved to Mandara and then the Plateau of Biu with some of his followers or relatives Being a student of History Abdulahi or who later became Yamta ra wala attempted to replicate what the Kanembu were able to do among the local people they conquered some centuries earlier they created an ethnicity and language called Kanuri Yamta ra wala succeeded somewhat but wasn t able to completely conquer the Bura people and turn them in his new ethnic vision Instead the Buras went to the hills to fight him the next day The new breed he created he called Pabir or Babur as the Hausa would call them The myth of who Yamta ra wala is has for the present eclipsed historians and would probably continue for some time to come As for the Bura Most have down the hill tops and mountains and the Pabir they have never been closer than today Today for all practical purposes they are one and the same ethnic group they ve intermingled more than any two previously separated groups Their vocabulary phonology and cultural practices have fused into one in most instances
