English: A-L O. Classe,2000 **Novels, Maps, Modernity** Eric Bulson,2017-09-25 This book examines how readers and novelists alike have used maps guidebooks and other geographical media to imagine and represent the space of the novel from the mid nineteenth century to the present **Urban Confrontations in Literature and Social Science, 1848-2001**

Edward J. Ahearn,2016-02-11 In an innovative contribution to the challenging of disciplinary boundaries Edward J Ahearn juxtaposes works of literature with the writings of social scientists to discover how together they illuminate city life in ways that neither can accomplish separately Ahearn s argument spans from the second half of the nineteenth century in Western Europe to the present day United States and encompasses a wide range of literary genres and sociological schools For example Charles Baudelaire s essays on the city are viewed alongside the work of Emile Durkheim and Georg Simmel Bertolt Brecht s Jungle of Cities heightens the arguments of Louis Wirth and Robert Park Richard Wright s Native Son and Saul Bellow s The Adventures of Augie March are re visioned in tandem with works by William Julius Wilson and others Herman Melville s Bartleby the Scrivener poses a challenge to James Q Wilson s Bureaucracy Toni Morrison s historical novel Jazz is buttressed by the career of Robert Moses and the revisionist work of historians Hilary Ballon and Kenneth T Jackson and Don DeLillos s Cosmopolis comes into brilliant focus in the light of arguments on world cybercities by David Harvey Saskia Sassen and Manuel Cassels Resisting the temptation to ignore contradictions for the sake of interpretation Ahearn instead offers the reader a view of the modern city as complex as his subject matter Here the methodologies and knowledge generated by the social sciences are both complemented and subverted by the experience of city life as portrayed in literature With its diverse narrative tactics and shifting points of view which can be as disorienting to the reader as a foreign city is to an arriving immigrant literature reinforces the importance of method and outlook in the social sciences Ultimately Ahearn suggests neither literature nor the social sciences can capture the experience of urban misery **Revenge versus Legality**

Katherine Maynard,Jarod Kearney,James Guimond,2010-04-09 In the wake of Guantanamo Bay extraordinary renditions and secret torture centres in Eastern Europe and elsewhere Revenge versus Legality addresses the relationship between law and wild or vigilante justice between the power to enforce retribution and the desire to seek revenge Taking up a variety of narratives from the eras of Romanticism Realism Modernism and the Contemporary period and including new theories to explain the interactions that occur between legalistic courtroom justice and the vigilante variety Revenge versus Legality analyzes some of the main obstacles to justice ranging from judicial corruption to racism and imperialism The book culminates in a consideration of that form of crime or lawlessness that poses the most serious threat to the rule of law vigilante justice masquerading as legality With its mixture of politics literature law and film this lively and accessible book

offers a timely reflection on the enduring phenomenon of revenge **James McNeill Whistler and France** Suzanne Singletary, 2016-11-18 James McNeill Whistler and France A Dialogue in Paint Poetry and Music is the first full length and in depth study to position this painter within the overall trajectory of French modernism during the second half of the nineteenth century and to view the artist as integral to the aesthetic projects of its most original contributors Suzanne M Singletary maintains that Whistler was in a unique situation as an insider within the emerging French avant garde thereby in an enviable position to both absorb and transform the innovations of others and that until now his widespread influence as a catalyst among his colleagues has been neither investigated nor appreciated Singletary contends that Whistler s importance rivals that of Manet whose multi layered and often unexpected interconnections with Whistler are the focus of one chapter In addition Whistler s pivotal role in linking the legacies of Baudelaire Delacroix Gautier Wagner and other mid century innovators to the later French Symbolists has previously been largely ignored Courbet Degas Monet and Seurat complete the roster of French artists whose dialogue with Whistler is highlighted Honoré de Balzac Peter Brooks, 2022-07-28 A book on the experience of reading Honor de Balzac s La Com die humaine which recounts the process of Peter Brooks s own discovery of Balzac A personal account of coming to terms with Balzac moving from more classical and restrained authors to the highly coloured melodramatic novels of the Human Comedy which give us the dynamics of a new and challenging world on the threshold of modernity This volume shows readers how to read and to love reading Balzac and how to engage with his vast work **The Wisdom of the Romantics** Michael K. Kellogg, 2025-05-06 Explore the transformative power of Romanticism where emotion imagination and contradiction collide through the eyes of its greatest thinkers and artists The post Enlightenment movement known as Romanticism is a messy period so messy in fact that many scholars eschew any attempt to define it In reaction to the overreliance placed on reason by Enlightenment thinkers Romantics emphasized individual freedom emotional intensity introspection sincerity and heightened imagination They sought out nature at its wildest and most sublime tall mountains steep gorges and resounding cataracts They dabbled in the gothic and grotesque in mythology the sacred and the mystical Romanticism was a turning inward into subjectivity In The Wisdom of the Romantics author Michael Kellogg profiles such disparate authors as Rousseau and Balzac Goethe and Hegel Wordsworth and Jane Austen revealing that classifying Romantic thinkers is a highly subjective enterprise which is the whole point That isn t to say that the change in thinking was inconsequential Far from it The transition from Haydn and Mozart to Beethoven and Chopin could not have been more dramatic The German born composer Giacomo Meyerbeer brought grand opera to new heights The paintings of Francisco Goya William Blake Caspar David Friedrich and J M W Turner were all part of the transition away from a classical academic style to the emotive extremes that heralded the coming of impressionism in the latter part of the century In this latest entry into his popular Wisdom series Kellogg explores the mercurial and ephemeral movement known as Romanticism arguing that what Romanticism is includes many contradictions precisely what the rationalists rejected Film

Noir Homer B. Pettay, 2014-11-11 Explores the development of film noir as a cultural and artistic phenomenon This book traces the development of what we know as film noir from the proto noir elements of Feuillade's silent French crime series and German Expressionism to the genre's mid twentieth century popularization and influence on contemporary global media By employing experimental lighting effects oblique camera angles distorted compositions and shifting points of view film noir's style both creates and comments upon a morally adumbrated world where the alienating effects of the uncanny the fetishistic and the surreal dominate What drew original audiences to film noir is an immediate recognition of this modern social and psychological reality Much of the appeal of film noir concerns its commentary on social anxieties its cynical view of political and capitalist corruption and its all too brutal depictions of American modernity This book examines the changing often volatile shifts in representations of masculinity and femininity as well as the genre's complex relationship with Afro American culture observable through noir's musical and sonic experiments Key features Traces the history of film noir from its aesthetic antecedents through its mid century popularization to its influence on contemporary global media Discusses the influence of literary and artistic sources on the development of film noir Includes extensive bibliographies filmographies and recommended noir film viewing Concludes with a reflective chapter by Alain Silver and James Ursini on their own influential studies and collections on film noir criticism

The Cylinder Helmut Müller-Sievers, 2012-03-28 The Cylinder investigates the surprising proliferation of cylindrical objects in the nineteenth century such as steam engines phonographs panoramas rotary printing presses silos safety locks and many more Examining this phenomenon through the lens of kinematics the science of forcing motion Helmut Müller Sievers provides a new view of the history of mechanics and of the culture of the industrial revolution including its literature that focuses on the metaphysics and aesthetics of motion Müller Sievers explores how nineteenth century prose falls in with the specific rhythm of cylindrical machinery re imagines the curvature of cylindrical spaces and conjoins narrative progress and reflection in a single stylistic motion Illuminating the intersection of engineering culture and literature he argues for a concept of culture that includes an epoch's relation to the motion of its machines

Masculine Figures Nicholas Wolters, 2023-01-25 Based on years of archival research in Madrid and Barcelona this interdisciplinary study offers a fresh approach to understanding how men visualized themselves and their place in a nation that struggled to modernize after nearly a century of civil war colonial entanglement and imperial loss Masculine Figures is the first study to provide a comprehensive overview of competing models of masculinity in nineteenth century Spain and it is particularly novel in its treatment of Catalan texts and previously unstudied evidence e.g. department store catalogs commercial advertisements fashion plates and men's tailoring journals Fictional masculinity performs a symbolic role in representing and negotiating the contradictions male novelists often encountered in their attempts to professionalize not only as writers but also as businessmen professors lawyers and politicians Through specific and recurring figures like the student the priest the businessman and the heir male novelists portray and represent an increasingly middle class world at

odds with the values and virtues it inherited from an imperial Spanish past and those it imported from more industrialized nations like England and France The visual culture of the time and place marks the material turn in middle class masculinity and sets the stage for discussions of race and sexuality

Crisis-consciousness and the Novel Eugene Hollahan, 1992

This book examines the emergence of modern consciousness as consciousness develops historically in one cultural form prose fiction narrative The book represents a critical history of crisis arguably the most characterizing single word in the modern world and a major figuration or trope Eugene Hollahan has studied the history of this important word within the development of the English language novel from Samuel Richardson to Saul Bellow After establishing a heuristic model for such a critical history Hollahan tracks the word characterized by George Eliot in *Felix Holt the Radical* as a great noun through two and a half centuries of narratives by major novelists with contextualizing excursions into discourses in related fields such as autobiography philosophy theology and social science Hollahan contextualizes his study of English language narrative fiction by examining the writings of crisis rhetoricians in the eighteenth century Thomas Paine nineteenth century Thomas Carlyle J S Mill and J H Newman and twentieth century Karl Barth Edmund Husserl T S Kuhn and Richard M Nixon Such varied and powerful crisis rhetorics establish a matrix of language and ideas for the crisis centered novels Hollahan surveys These novels include major works by Samuel Richardson Walter Scott Jane Austen George Eliot George Meredith George Gissing George Moore D H Lawrence E M Forster James Joyce Lawrence Durrell Robert Coover and Saul Bellow Hollahan's description of the crisis trope interfaces with various critical issues such as canonical inclusion reader response and deconstruction On the whole his book acknowledges current critical issues but endeavors to remain basically a critical history It attempts to demonstrate that the crisis riddled modern world and the crisis conscious novel are analogous and coeval Crisis begins as Aristotle's term for logical plot structuring becomes Longinus's term for emotional exacerbation and eventually enters into a variety of critical and narrative formulations Matthew Arnold's cultural centrality Henry James's existential aestheticism Lawrence's self defining sexuality Marshall Brown's revolutionary turning point Paul de Man's error ridden criticism Floyd Merrell's cut into the primordial flux Durrell's reborn self and Bellow's analysis of hysterical escapism Broadly speaking Hollahan argues that any crisis trope will enable or even necessitate a unique confluence of writerly and readerly skills In Louis Lambert Balzac urged What a wonderful book one would write by narrating the life and adventures of a word The story Hollahan narrates fulfills Balzac's expectations as it depicts writer after writer working out influential representations of human life in terms of crisis consciousness centering upon George Eliot's great noun crisis Historically Hollahan demonstrates such consciousness comes to define modern humanity

The Novel: An Alternative History, 1600-1800 Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this

sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry*. This is the period of such classic novels as *Tom Jones*, *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists: Spanish picaresques, French heroic romances, massive Chinese novels, Japanese graphic novels, eccentric English novels and the earliest American novels. These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs. The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres: epistolary novels, romances, Gothic thrillers, novels in verse, parodies, science fiction, episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant-garde works. As in his previous volume, Moore privileges the innovators and outriders: those who kept the novel novel. In the most comprehensive history of this period ever written, Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative. Though written for a general audience, *The Novel: An Alternative History* also provides the scholarly apparatus required by the serious student of the period. This sequel, like its predecessor, is a zestfully encyclopedic, avidly opinionated and dazzlingly fresh history of the most elastic of literary forms.
