Family History Digital Libraries William Sims Bainbridge, 2018-11-02 In the modern era every family and local community can cultivate its own history endowing living people with meanings inherited from the people of the past by means of today's computer based information and communication technologies A new profession is emerging family historians serving the wider public by assisting in collection and analysis of fascinating data by teaching talented amateur historians and by producing complete narratives Essential are the skills and technologies required to preserve and connect photos movies videos diaries memoirs correspondence artefacts and even architecture such as homes Online genealogical services are well established sources of official government records but usually not for recent decades and not covering the valuable records of legal medical and religious organizations Information can be shared and interpreted by family members through oral history interviews social media and online private archives such as wikis and shared file depositories This book explores a wide variety of online information sources and achieves coherence by documenting and interpreting the history of a particular extended American family on the basis of 9 decades of movies and videos 17 decades of photographs and centuries of documents Starting now any family may begin to preserve their current experiences for the historians of the future but this will require social as well as technical innovations This book is the essential resource providing the fundamental principles effective methods and fascinating questions required to make our past live again

Fathers and Forefathers Martin Robb , 2020-12-15 Research on fathers and fatherhood has blossomed in recent years focusing for the most part on present day fathering experiences but also beginning to uncover hidden narratives of past fatherhood This collection aims to add something new to this expanding field by exploring the dynamic relationship between present and past fatherhoods The popular understanding of fathers in past generations as being detached and uninvolved in the lives of their children can be said to play a significant part in the construction of modern fathering identities with ideas of new fatherhood being played off against notions of historical fathering practices However research has begun to show that these popular myths often misremember the past judging it by current standards and obscuring the diverse nature of fathering practices in the recent and distant past A genealogical approach is able to critically examine these intergenerational constructions of fatherhood and more positively illuminate the ways in which experiences of fathering and being fathered are passed on between generations The contributions to this collection use a genealogical approach broadly defined to fathering and fatherhood as a way of defamiliarizing accepted narratives and suggesting new ways of thinking about men and their relationships with their children

The Source Loretto Dennis Szucs, Sandra Hargreaves Luebking, 2006. Genealogists and other historical researchers have valued the first two editions of this work, often referred to as the genealogist's bible. The new edition continues that tradition. Intended as a handbook and a guide to selecting, locating, and using appropriate primary and secondary resources, *The Source* also functions as an instructional tool for novice genealogists and a refresher course for experienced researchers. More than 30 experts in this field—genealogists, historians, librarians, and archivists—prepared the 20 signed chapters, which are well written, easy to read, and include many helpful hints for getting the most out of whatever information is acquired. Each chapter ends with an extensive bibliography and is further enriched by tables, black and white illustrations, and examples of documents. Eight appendixes include the expected contact information for groups and institutions that persons studying genealogy and history need to find. *Seasoned Socialism* Anastasia Lakhtikova, Angela Brintlinger, Irina

Glushchenko, 2019-04-04. This essay anthology explores the intersection of gender, food, and culture in post-1960s Soviet life, from personal cookbooks to gulag survival. *Seasoned Socialism* considers the relationship between gender and food in late Soviet daily life, specifically between 1964 and 1985. Political and economic conditions heavily influenced Soviet life and foodways during this period, and an exploration of Soviet women's central role in the daily sustenance for their families, as well as the obstacles they faced, offers new insights into intergenerational and inter-gender power dynamics of that time. *Seasoned Socialism* considers gender construction and performance across a wide array of primary sources, including poetry, fiction, film, women's journals, oral histories, and interviews. This collection provides fresh insight into how the Soviet government sought to influence both what citizens ate and how they thought about food. **Genomic and**
