Researching Embodied Sport Ian Wellard,2015-08-27 Despite a growing interest in the sociology of the body there has to date been a lack of scholarly work addressing the embodied aspects which form a central part of our understanding and experience of sport and movement cultures Researching Embodied Sport explores the political social and cultural significance of embodied approaches to the study of sport physical activities and dance It explains how embodied approaches fit with existing theory in studies of sport and movement cultures and makes a compelling case for incorporating an embodied approach into the study of sporting practices and experience The book adopts a multi disciplinary lens moving beyond the traditional dualism of body and mind and incorporating the physical with the social and the psychological It applies key theories that have shaped our thinking about the body and sport and examines both the personal subjective experience of sporting activities and those experiences involving engagement and contact with other people in team sports for example The book also explores the methodological implications of doing embodied research particularly in terms of qualitative approaches to sports research Written by a team of leading international sports researchers and packed with vivid examples from sporting contexts as diverse as surfing fell running korfbal and disability sport Researching Embodied Sport is fascinating reading for any advanced student or researcher working in the sociology of sport physical cultural studies physical education body studies or health studies

Affect Theory and Comparative Education Discourse Irving Epstein,2019-07-11 What does educational policy making and institutional practice entail in an era of globalization Global interactions challenge conventional assumptions governing the certainty of geographical boundedness simplistic notions of citizenship and identity fixed notions of time space and movement and clear distinctions between economic modes of production and consumption Irving Epstein argues that conventional educational institutions and the policies that support them tend to ignore such anxiety by affirming a belief in educational modernism to the exclusion of other possibilities What is missing in most of these analyses is an appreciation for the role of affect in determining how our encounters with these practices become significant and how our efforts to find meaning in those policies and practices lead to their acceptance or rejection This book is the first application of affect theory to comparative education themes and shows how it can help to form a more robust discussion of the policy making process and the popular reactions to it After discussing the key concepts associated with affect theory he

presents a total of six case studies Three of the cases depict relationships between educational cultural and social organizations whose purposes conflict with one another but whose presence is indicative of a loss of faith in the efficacy of public schooling Three of the cases are illustrative of an even greater systematic rejection of educational institutional aim and purpose

Globalized Sport Management in Diverse Cultural Contexts James J. Zhang, Brenda G. Pitts, 2019-04-05

Cross cultural management is an important facet of the globalized sport industry Sport managers must be skilled at working with individuals from diverse cultures and aware of the key issues affecting sport on a global level This book brings together cutting edge research from leading sport scholars from around the world to illuminate some of those important issues and to demonstrate what cross cultural management looks like in a sporting context Presenting case studies from countries as diverse as the US Brazil Poland and Venezuela and across a range of sports from football to basketball the book presents new empirical material derived from a range of inquiry protocols including both qualitative and quantitative methods It offers critical analyses of cross cultural and managerial issues in key areas such as group cohesiveness group communications and misperception and misinterpretation Making an important contribution to our understanding of both theory and practice in sport management this book is fascinating reading for any student researcher or practitioner with an interest in global and international sport

Global Perspectives on Children's Health Literacy Rosie Nash, Vaughan Cruickshank, Shandell Elmer, 2024-08-27

This book examines global perspectives of health literacy development to explore the intersections between health education and community settings International health literacy experts provide a collection of important insights and recommendations that are urgently required to inform practice and policy The impetus for this book is a growing recognition that a siloed approach to supporting health and health literacy exists in many countries This book addresses a gap in the international literature by presenting solutions that promote ongoing collaboration across settings to redress inequity and optimize global health Identifying intersections between the settings is critically important to supporting these collaborations Health literacy is the ability to find use evaluate and apply information to look after our health Developing the personal asset of health literacy earlier in life influences adult health behaviours A Health in All Policies approach has been globally endorsed however a health literacy in all settings approach is yet to be realised As a social determinant of health health literacy can determine health outcomes educational attainment social equity and productivity The authors investigate the health literacy development of children and their communities within particular regions exploring whether health literacy is addressed as a health education or community issue They describe where silos exist between and within settings aiming to highlight areas where health literacy is present This helps identify challenges and opportunities for optimizing health literacy development Global Perspectives on Children's Health Literacy is essential reading for public health and health promotion researchers and practitioners primordial prevention researchers policy makers health and education ministers community service ministers youth organisations librarians school teachers health and physical education teachers school nurses child
