Professions: Fresh Perspectives on a Complex Problem Kathleen Buse, Catherine Hill, Romila Singh, 2018-06-21

Understanding the many complexities that define gender inequality has been described by researchers as a grand challenge. Novel insights, innovation, a broader community to conduct research and to ascertain effective interventions are essential in the challenge to create organizations that are gender equal. As such, this Research Topic in *Frontiers in Psychology* addresses the underrepresentation of women in engineering and computing as a complex but solvable problem. This Research Topic seeks to inform the global community about advances in understanding the underrepresentation of women in engineering and computing with a focus on what enables change. Further, this Topic will promote fresh perspectives, innovative methodologies, and mixed method approaches important to accelerating the pace of change. [A Diversity of Pathways Through Science Education](#)

Yann Shiou Ong, Timothy Ter Ming Tan, Yew-Jin Lee, 2024-06-18. This book presents the work of academics who contributed their work at the International Science Education Conference ISEC 2021 in alignment with the conference theme 2020 Vision for Science Education Research. Collectively, the chapters aim to evoke intellectual dialogues on current and future trends in science education. It features chapters that are grouped thematically into three sections: Questions and Questioning in Science, STEM education, Developing Science Teaching and Assessment, and History, Philosophy and Sociology of Science, Engineering and Informal Learning. Through the various sections, the book presents empirical studies in science and engineering classrooms or laboratories, puts forward a framework for problem-based learning, provides an account of a prominent scientist's efforts in promoting practical science through analysis of historical documents, and uncovers trends in informal science learning space research through a review of literature. Each section is introduced by a commentary with further insights and thought-provoking questions on ideas raised in the chapters. The book also includes a Notes to Our Future Colleagues section in each chapter which presents readers with a collective vision for the state of science education research in the year 2050.
