Qur'an and Its Interpreters, The, Volume 1 Mahmoud M. Ayoub, 1984-06-30 The Qur'an and Its Interpreters introduces the Western reader to the Qur'an as Muslims have understood it The record of the Qur'an in the community as a force shaping the life of Muslims can be most clearly discerned through the vast literature of interpretation known as tafsir This multivolume work is based on a large number of tafsir sources representing all the major religious schools and stages of Muslim history for the last one thousand years It will cover the entire Qur'an This first volume consists of an introduction to the science and sources of interpretation of the Qur'an and the first two surahs of the Qur'an The treatment is comprehensive and thorough While the work is based entirely on primary sources this volume includes a substantial bibliography of works on the Qur'an in Western languages The Qur'an is the word of God as it was revealed to the prophet Muhammad interiorized by the community then shaped into an earthly book whose original archetype is with God Dr Ayoub concerns himself not with the history of the Qur'an but with the way it was collected and fixed into an official codex the recension of which has voiced the community's prayers and devotions set its legal norms and moral standards and occupied its best minds for more than thirteen hundred years The Churches of the Crusader Kingdom of Jerusalem: A Corpus: Volume 2, L-Z (excluding Tyre) Denys Pringle, 1993 This is the second of a series of four volumes that are intended to present a complete corpus of all the church buildings of both the western and the oriental rites rebuilt or simply in use in the Crusader Kingdom of Jerusalem between the capture of Jerusalem for the First Crusade in 1099 and the loss of Acre in 1291 This volume completes the general topographical coverage begun in volume I and will be followed by a third volume dealing specifically with the major cities of Jerusalem Acre and Tyre which are excluded from the preceding volumes The project of

which this series represents the final definitive publication has been sponsored by the British School of Archaeology in Jerusalem On completion the corpus will contain a topographical listing of all the 400 or more church buildings of the Kingdom that are attested by documentary or surviving archaeological evidence and individual descriptions and discussion of them in terms of their identification building history and architecture Some of the buildings have been published before but many others are published here for the first time The Qur'an and Its Interpreters , Volume 1 Mahmoud Ayoub,1984-01-01 The Qur'an and Its Interpreters introduces the Western reader to the Qur'an as Muslims have understood it The record of the Qur'an in the community as a force shaping the life of Muslims can be most clearly discerned through the vast literature of interpretation known as tafsir This multivolume work is based on a large number of tafsir sources representing all the major religious schools and stages of Muslim history for the last one thousand years It will cover the entire Qur'an This first volume consists of an introduction to the science and sources of interpretation of the Qur'an and the first two surahs of the Qur'an The treatment is comprehensive and thorough While the work is based entirely on primary sources this volume includes a substantial bibliography of works on the Qur'an in Western languages The Qur'an is the word of God as it was revealed to the prophet Muhammad interiorized by the community then shaped into an earthly book whose original archetype is with God Dr Ayoub concerns himself not with the history of the Qur'an but with the way it was collected and fixed into an official codex the recension of which has voiced the community's prayers and devotions set its legal norms and moral standards and occupied its best minds for more than thirteen hundred years **Catalogue of the Library of the Seminary of Mt. Hobbs,2014-02-19 This study of the Egyptian mountain

widely believed to be Mount Sinai examines its geographical features sacred sites and the effects of rising tourism Amid the high mountains of Egypt's southern Sinai Peninsula stands Jebel Musa Mount Moses which many Christians and Muslims revere as Mount Sinai In this fascinating study Joseph Hobbs draws on geography and archaeology Biblical and Quranic accounts and a wide array of personal experiences from Christian monks to Bedouin shepherds medieval Europeans and casual tourists to explore why this mountain came to be considered a sacred place He also shows how that very perception now threatens its fragile ecology and inspiring solitude After discussing the physical and geographic characteristics of Jebel Musa that suggest it as the most probable Mount Sinai Hobbs fully describes all Christian and Muslim sacred sites around the mountain He also views Mount Sinai from the perspectives of the Jabaliya Bedouins and the monks of the St Katherine Monastery both of whom have inhabited in the region for centuries Hobbs concludes his account with the international debate over whether to build a cable car on Mount Sinai and with an unflinching description of the negative impact of tourism on the delicate desert environment His book raises important troubling questions for everyone concerned about the fate of the earth's wild and sacred places
