Love, Reason and Morality Katrien Schaubroeck, Esther Kroeker, 2016-07-28 This book brings together new essays that explore the connection between love and reasons The observation that considerations of love carry significant weight in the deliberative process opens up new perspectives in the classic discussion about practical reasons and gives rise to many interesting questions about the nature of love's reasons about their source and legitimacy about their relation to moral and epistemic reasons and about the extent to which love is sensitive to reasons The contributors to this volume orient questions related to love within the broader context of the contemporary discussion on practical reasons and move forward the conversation about the normative dimensions of love Love Reason and Morality will be of interest to philosophers working on issues of normativity meta ethics and moral psychology and especially those interested in the source of practical reasons and the role of attachments in practical deliberation

Love's Knowledge Martha C. Nussbaum, 1992-04-02 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends

a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements

The Concept of Love in 17th and 18th Century Philosophy Herman de Dijn,2007 Love is joy with the accompanying idea of an external cause Spinoza s definition of love manifests a major paradigm shift achieved by seventeenth century Europe in which the emotions formerly seen as normative forces of nature were embraced by the new science of the mind This shift has often been seen as a transition from a philosophy laden with implicit values and assumptions to a more scientific and value free way of understanding human action But is this rational approach really value free Today we tend to believe that values are inescapable and that the descriptive mechanical method implies its own set of values Yet the assertion by Spinoza Malebranche Leibniz and Enlightenment thinkers that love guides us to wisdom and even that the love of a god who creates and maintains order and harmony in the world forms the core of ethical behavior still resonates powerfully with us It is evidently an idea Western culture is unwilling to relinquish This collection of insightful essays offers a range of interesting perspectives on how the triumph of reason affected not only the scientific philosophical understanding of the emotions and especially of love but our everyday understanding as well *View of the State of Europe During the Middle*

National Labor Relations Board United States. National Labor Relations Board,1977 *Chains of Love and Beauty* Carolyn Dever,2022-04-19 Michael Field was the pseudonym of two women writing as a male author Katharine Bradley and Edith Cooper who were aunt and niece and a devoted couple for three decades that spanned the late nineteenth and the early twentieth centuries While much has been written about the Fields many volumes of poetry and plays and about their strange and complicated life this book is the first to focus on their diary which they kept for twenty five years and viewed as an unpublished manuscript called Works and Days In this book Dever argues that Works and Days represents one of the great experimental prose narratives of the transitional period between Victorian and modernist literature Through the co written diary which fills twenty nine volumes and about 9 500 pages the women envisioned a life beyond the tight horizons of one home and one family and portrayed new forms of women s intimacy at the dawn of the twentieth century Dever focuses on five pivotal years in the life of Bradley and Cooper as reflected in the diary the death of Cooper s mother a year of personal

and professional humiliation the death of Cooper's father the women's establishment of their home together and the event they experience as a devastating loss the death of their dog Whym Chow In this examination of the Fields most personal writing Dever establishes their unlikely role as a bridge between the Victorians and the experiments of modernism to come

Lovers in Essence Sharon Krishek, 2022 Romantic love is a defining phenomenon in human existence and an object of heightened interest for literature art popular culture and psychology But what is romantic love and why is it typically experienced as so significant to our existence Using central ideas from the philosophy of Søren Kierkegaard as well as engaging with contemporary discussions in the philosophy of love this book explores the nature of romantic love and philosophically substantiates its meaningfulness to an individual's life It does so by developing a connection between love and selfhood here explained in terms of one's distinct individuality To be a self it is claimed is to possess a name that is an individual essence Further the book argues it is when we love that we regard people by their names we respond to who they truly are Accordingly the idea anchoring the book is that love is a correspondence between essences if Jane loves Edward she responds to him being who he is by virtue of her being who she is The conception of being thus correspondent has important implications as to the moral and spiritual value of romantic love Relying on Kierkegaard's analysis of the self of faith and of love even if sometimes in a way that departs from Kierkegaard's explicit position the book explores these implications By doing this it construes romantic love as a desirable phenomenon emotionally morally and spiritually

The Development of Ethics: Volume 2 Terence Irwin, 2008-07-31 The Development of Ethics is a selective historical and critical study of moral philosophy in the Socratic tradition with special attention to Aristotelian naturalism It discusses the main topics of moral philosophy as they have developed historically including the human good human nature justice friendship and morality the methods of moral inquiry the virtues and their connexions will freedom and responsibility reason and emotion relativism subjectivism and realism the theological aspect of morality This volume examines early modern moral philosophy from the sixteenth to the eighteenth century Volume 3 will continue the story up to Rawls's Theory of Justice The present volume begins with Suarez's interpretation of Scholastic moral philosophy and examines seventeenth and eighteenth century responses to the Scholastic outlook to see how far they constitute a distinctively different conception of moral philosophy The treatments of natural law by Grotius Hobbes Cumberland and Pufendorf are treated in some detail Disputes about moral facts moral judgments and moral motivation are traced through Cudworth Clarke Balguy Hutcheson Hume Price and Reid Butler's defence of a naturalist account of morality is examined and compared with the Aristotelian and Scholastic views discussed in Volume 1 The volume ends with a survey of the persistence of voluntarism in English moral philosophy and a brief discussion of the contrasts and connexions between Rousseau and earlier views on natural law The emphasis of the book is not purely descriptive narrative or exegetical but also philosophical Irwin discusses the comparative merits of different views the difficulties that they raise and how some of the difficulties might be resolved The book tries to present the

leading moral philosophers of the past as participants in a rational discussion that is still being carried on and tries to help the reader to participate in this discussion

Religion and Morality Daniel Statman, Avi Sagi, 2022-06-08 Religion and Morality seeks to answer two fundamental questions regarding the relation between religion and morality The first is the puzzle posed by Socrates the so called Euthyphro dilemma which asks is morality valuable by virtue of its intrinsic importance and worth or is morality valuable because and only because God approves it and commands us to follow its dictates The second question is raised by Kierkegaard in Fear and Trembling He asks Is a conflict between religion and morality possible Does God ever demand that we neglect our moral commitments The discussion on these questions is divided into three parts In the first two parts we discuss the idea that morality depends on religion The authors distinguish two types of dependence strong dependence according to which the very existence or validity of moral obligations depends on God's command and weak dependence according to which though morality itself is independent of God God or belief in God is necessary to enable human beings to know their moral duties and to carry them out The authors reject the strong dependence thesis as well as most versions of the weak dependence The third part of the book discusses different versions of the view that religion might conflict with morality The authors reject this view and show that very few religious thinkers would follow it all the way through to its ultimate consequences The book has implications for the philosophy of religion in its emphasis on the centrality of the moral element in religion and for moral philosophy in its highlighting among other things of the nature of moral judgments

Early Printed Narrative Literature in Western Europe Bart Besamusca, Elisabeth de Bruijn, Frank Willaert, 2019-11-05 The essays in this volume are concerned with early printed narrative texts in Western Europe The aim of this book is to consider to what extent the shift from hand written to printed books left its mark on narrative literature in a number of vernacular languages Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies Did narrative texts that already existed in manuscript form undergo significant modifications when they

began to be printed How did this crucial media development affect the nature of these narratives Which strategies did early printers develop to make their texts commercially attractive Which social classes were the target audiences for their editions Around half of the articles focus on developments in the history of early printed narrative texts others discuss publication strategies This book provides an impetus for cross linguistic research It invites scholars from various disciplines to get involved in an international conversation about fifteenth and sixteenth century narrative literature

Historical View of the Literature of the South of Europe Jean-Charles-Léonard Simonde Sismondi, 1871 *The Radical Demand in Løgstrup's Ethics* Robert Stern, 2019-01-03 How much does ethics demand of us On what authority does it demand it How does what ethics demand relate to other requirements such as those of prudence law and social convention Does ethics really demand anything at all Questions of this sort lie at the heart of the work of the Danish philosopher and theologian K E Løgstrup 1905 1981 and in particular his key text *The Ethical Demand* 1956 In *The Radical Demand in Løgstrup's Ethics* Robert Stern offers a full account of that text and situates Løgstrup's distinctive position in relation to Kant Kierkegaard Levinas Darwall and Luther For Løgstrup the ethical situation is primarily one in which the fate of the other person is placed in your hands where it is then your responsibility to do what is best for them The demand therefore does not come from the other person as such as what they ask you to do may be different from what you should do It is also not laid down by social rules nor by God or by any formal principle of practical reason such as Kant's principle of universalizability Rather it comes from what is required to care for the other and the directive power of their needs in the situation Løgstrup therefore rejects accounts of ethical obligation based on the commands of God or on abstract principles governing practical reason or on social norms instead he develops a different picture at the basis of which is our interdependence which he argues gives his ethics a grounding in the nature of life itself

Virtue, Vice, and Value Thomas Hurka, 2003 Hurka's book puts forth a comprehensive theoretical account of moral virtue and vice More specifically it gives an account of the intrinsic goodness of virtue and intrinsic evil of vice that can fit into a consequentialist moral theory
