Ray Crozier, Peter J. de Jong, 2012-11-29 The blush is a ubiquitous yet little understood phenomenon which can be triggered by a number of self conscious emotions such as shame embarrassment shyness pride and guilt The field of psychology has seen a recent surge in the research of such emotions yet blushing remains a relatively neglected area This unique volume brings together leading researchers from a variety of disciplines to review emerging research on the blush discussing in depth issues that have arisen and stimulating new theorizing to indicate future directions for research Topics covered include the psychophysiology of the blush developmental aspects measurement issues its evolutionary significance and the role of similar colour signals in the social life of other species its relation to embarrassment shame and social anxiety and the rationale for and clinical trials of interventions to help people suffering from blushing phobia *The Psychology of Sociability* Joseph P. Forgas, William Crano, Klaus Fiedler, 2022-06-01 This edited volume brings together the latest research in understanding the nature origins and evolution of human sociability one of the most intriguing aspects of human psychology Sociability our sophisticated ability to interact with others imagine plan and execute interdependent behaviours lies at the heart of our evolutionary success and is the most important prerequisite for the development of increasingly elaborate civilizations With contributions from internationally renowned researchers in areas of social psychology as well as anthropology and evolutionary psychology this book demonstrates the role of social psychology in explaining how human sociability evolved how it shapes our mental and emotional lives and how it influences both large scale civilizational practices and intimate interpersonal relations Chapters cover the core psychological characteristics that shape human sociability including such phenomena as the role of information exchange affective processes social norms power relations personal relationships attachment patterns personality characteristics and evolutionary pressures Featuring a wide variety of empirical and theoretical backgrounds the book will be of interest to students and researchers in all areas of the social sciences as well as practitioners and applied professionals who deal with issues related to sociability in their daily lives **The Body and Shame** Luna Dolezal, 2015-03-31 The Body and Shame Phenomenology Feminism and the Socially Shaped Body investigates the concept of body shame and explores its significance when considering philosophical accounts of embodied subjectivity Body shame only finds its full articulation in the presence

actual or imagined of others within a rule and norm governed milieu As such it bridges our personal individual and embodied experience with the social cultural and political world that contains us Luna Dolezal argues that understanding body shame can shed light on how the social is embodied that is how the body experienced in its phenomenological primacy by the subject becomes a social and cultural artifact shaped by external forces and demands The Body and Shame introduces leading twentieth century phenomenological and sociological accounts of embodied subjectivity through the work of Edmund Husserl Maurice Merleau Ponty Jean Paul Sartre Michel Foucault and Norbert Elias Dolezal examines the embodied social and political features of body shame contending that body shame is both a necessary and constitutive part of embodied subjectivity while simultaneously a potential site of oppression and marginalization Exploring the cultural politics of shame the final chapters of this work explore the phenomenology of self presentation and a feminist analysis of shame and gender with a critical focus on the practice of cosmetic surgery a site where the body is literally shaped by shame The Body and Shame will be of great interest to scholars and students in a wide variety of fields including philosophy phenomenology feminist theory women s studies social theory cultural studies psychology sociology and medical humanities

Adult Children of Divorce Geraldine K. Piorkowski, 2008-10-30 Romantic love is often an elusive fragile and tenuous state difficult to maintain across time The rates of divorce re divorce relationship violence and abuse today attest to the fact we are failing at romantic love And for teen aged and adult children of divorce romantic love can be especially elusive Because they have no roadmap for a satisfying stable romantic relationship derived from their own parents they are confused by what love is and tend to make poor partner choices Borrowing heavily from popular culture for unrealistic standards regarding love they become disillusioned when their all too ordinary lovers don t measure up Especially vulnerable to the problems their parents had they tend to overreact in a similar negative fashion and are all too ready to consider divorce when unhappiness strikes In attempting to halt intergenerational transmission of divorce Psychologist Piorkowski points to how we can recognize that American popular culture presents an overly sexualized explosive and superficial version of love that can t last With this book adult children of divorce can begin to see how they have been affected by familial experiences and develop a new realistic map to find more fulfilling and enduring romantic relationships Piorkowski in an extensive review of literature also looks at cultural factors and how they impact romantic love and marriage In contrast to American popular culture s shallow rendition of romantic love many cultures elsewhere in the world emphasize compatibility religion and family allegiance As a result says the author such marriages appear more stable than American unions built upon the shifting sands of emotion

Motivation and Its Regulation Joseph P. and cognitive factors shape our tribal habits featuring contributions from eminent international researchers The chapters review the nature and origins of tribalism the psychological mechanisms promoting tribalism how tribal narratives can distort rationality and perceptions of reality and the role of tribalism in politics and public affairs The contributions investigate how insecurity the search for meaning and attachment victimhood grievance and cognitive shortcomings can facilitate tribal bonding and how such groups once formed can foster conflict hatred and irrational behaviours The book suggests that the survival of our extremely successful civilisation based on the enlightenment values of liberty and individualism may well depend on our ability to understand and manage the human evolutionary propensity for tribalism The book will be of great interest to students and researchers in psychology sociology and other disciplines of behavioural and social sciences as well as all readers who seek to understand one of the most intriguing issues that shape human social life
