Allison G. Kaplan, 2015-12-07 Whether you're a practicing cataloger looking for a short text to update you on the application of RDA to cataloging records or a school librarian who needs a quick resource to answer cataloging questions, this guide is for you. Since the last edition of this invaluable text was published, the library world has experienced a revolution in descriptive cataloging, the likes of which has not been seen since the early 1980s. This updated third edition of an established and well-respected guide makes it easy for you to stay in step with those monumental changes. The book will help you understand the latest fundamentals of cataloging so you can get items on the library shelves quickly and efficiently. Every chapter has been revised. Changes in standards including RDA and BISAC that were alluded to in the second edition are discussed in depth and illustrated with explanations, and sample problem sets are included so you can put theory into practice. In addition, the book provides you with clear headings for easy scanning, as well as cheat sheets and templates for creating records for book and non-book items. Previous editions of this text have been used by library practitioners and library and information science professors across the country because of its spot-on, easy-to-follow guidance on cataloging for school libraries. This new edition builds upon those strengths, adding everything you need to know about current, groundbreaking changes. **Deploying Chromebooks in the Classroom** Guy Hart-Davis, 2018-08-29 Learn how to deploy Chromebook computers in a classroom or lab situation and how to navigate the hardware and software choices you face. This book equips you with the skills and knowledge to plan and execute a deployment of Chromebook computers in the classroom. Teachers and IT administrators at schools will see how to set up the hardware and software swiftly on your own or with the help of your students. Step-by-step instructions and practical examples walk you through assessing the practicability of deploying Chromebooks in your school, planning the deployment, and executing it. You'll become an expert in using a Chromebook, developing plans to train your colleagues and students to use Chromebooks, and learn how to run lessons with
