The People's Wars Mark Hewitson, 2017-02-09 How did ministers journalists academics artists and subjects in the German lands imagine war during the nineteenth century The Napoleonic Wars had been the bloodiest in Europe's history directly affecting millions of Germans yet their long term consequences on individuals and on politics are still poorly understood This study makes sense of contemporaries' memories and histories of the Revolutionary and Napoleonic campaigns within a much wider context of press reportage of wars elsewhere in Europe and overseas debates about military service and the reform of Germany's armies revolution and counter revolution and individuals' experiences of violence and death in their everyday lives For the majority of the populations of the German states wars during an era of conscription were not merely a matter of history and memory rather they concerned subjects' hopes fears and expectations of the future This is the second volume of Mark Hewitson's study of the violence of war in the German lands during the nineteenth and twentieth centuries It investigates the complex relationship between military conflicts and the violent acts of individual soldiers In particular it considers the contradictory impact of pacification in civilian life and exposure to increasingly destructive technologies of killing during war time This contradiction reached its nineteenth century apogee during the wars of unification leaving an ambiguous imprint on post war discussions of military conflict **A.W. Pink's Studies in the Scriptures - 1926-27, Volume 3 of 17** Arthur W Pink, 2001-09 **History of Customs in the Yuan Dynasty** Li Shi, The book is the volume of History of Customs in the Yuan Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually

splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty. 206 BC–220 AD. Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing, 1644–1912, which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War, 1927–1949. China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion, and foreign contact, form the basis of the modern culture of China.

The Foundations of Japan's Modernization Yoshiie Yoda, 2023-11-27. Tracing and evaluating the development in the history of Japanese culture and society that permits Japan's rapid and continuing modernization. Professor Yoda provides a new and original approach to the modernization of Japan. He starts from the assumption that Japan was better equipped for modernization because pre-modern Japan had already started to abandon Confucian influences. In his account of modernization during the Meiji period, he focuses on general patterns inherent in Japanese culture and society, enabling Japan to integrate foreign elements without having to follow foreign models slavishly. Patterns in culture, such as the Japanese preference for juxtaposing the new and the ancient, are contrasted with China's preference for discarding past institutions in revolutionary processes. The transferability of paradigms, such as absolutism, is accepted with some modifications. In the major descriptive part of the work, the history of economic, political, institutional, and modernization is presented on the basis of quotations from original Japanese and Chinese sources, arranged within the methodological framework of universal historical concepts, indigenous cultural patterns, and specific conditions in both countries. The book is composed of two articles previously published in Japanese and Chinese, two new chapters written especially for the volume, and background information provided by Professor Radtke. *East European Accessions Index*, 1960. **Analytical and Classified Catalogue of the Library ...: Q-Z, and supplement** Dennis O'Donovan, 1900. **Round Table**, 1869.
