

a) Classification of redeemable preference shares

In terms of IAS 32.18 the substance of a financial instrument rather than its legal form governs the classification of a financial instrument. (1)

In terms of IAS 32.11 a financial liability is any liability that is a contractual obligation to deliver cash. (1)

There is a contractual obligation to deliver cash in terms of the redemption of the preference shares. A fixed payment is due on 31 December 2015. (1)

There is also an obligation to pay the dividend. (1)

Franco Ltd does not have an unconditional right to avoid paying the dividends and capital therefore it is a financial liability. (1)

The legal form of the preference shares are equity but the shares are liabilities in substance. (1)

The redeemable preference shares shall be classified as a financial liability. (1)

(6) -> (5)

b) In accordance with IAS 33.23 ordinary shares that will be issued upon the conversion of a compulsory convertible instrument are included in the calculation of basic earnings per share from the date the contract is entered into. (1) (IAS 33.23)

These compulsory convertible instruments (preference shares) are not potential ordinary shares that may result in additional ordinary shares, they will definitely result in more ordinary shares and are therefore treated as ordinary shares from date of issue. These compulsory convertible preference shares are included in basic earnings per share. (1)

If these preference shares were not compulsory convertible, they shall not form part of the basic earnings per share calculation but form part of the diluted earnings per share calculation (1), only if in terms of ranking and testing it is indicated that these preference shares have a dilutive effect. (1)

Overview of the evolution of agricultural mechanization in Nepal: A focus on tractors and combine harvesters

Takeshima, Hiroyuki,2017-07-21 This study was conducted to understand the evolution of agricultural mechanization in Nepal specifically its determinants on both the demand and supply sides as well as impacts on agricultural production and associations with broader economic transformation processes in order to draw lessons that can be conveyed to other less mechanized countries Mechanization levels in Nepal a largely agricultural country were relatively low until a few decades ago However significant mechanization growth including the adoption of tractors has occurred since the 1990s against a backdrop of rising rural wages particularly for plowing combined with growing emigration and growth in key staple crop

yields and overall broad agricultural production growth as well as improved market access and participation This growth in mechanization has taken place despite the general absence of direct government support or promotion The growth of tractor use in the plains of the Terai zone has transformed agricultural production rather than inducing labor movement out of agriculture raising overall returns to scale in intensification and enabling the cultivation of greater areas by medium smallholders than by resource poor smallholders Tractors have also facilitated the intensification of crop production per unit of land among very small farmers enabling mechanization growth despite the continued decline in farm size although these farmers may not have benefited as much as medium smallholders Potential future research areas with policy relevance include mitigating accessibility constraints to tractor custom hiring services identifying appropriate regulatory policies for mechanization and providing complementary support to some smallholders who may not fully benefit from tractor adoption alone

The Real Cost of Cheap Food Michael Carolan, 2018-02-06 This thought provoking but accessible book critically examines the dominant food regime on its own terms by seriously asking whether we can afford cheap food and by exploring what exactly cheap food affords us Detailing the numerous ways that our understanding of food has narrowed such as its price per ounce combination of nutrients yield per acre or calories the book argues for a more contextual view of food when debating its affordability The first edition published in 2011 was widely praised for its innovative approach and readability In this new edition the author brings all data and citations fully up to date Increased coverage is given to many topics including climate change aquaculture financialization BRICS countries food based social movements gender and ethnic issues critical public health and land succession There is also greater discussion about successful cases of social change throughout all chapters by including new text boxes that emphasize these more positive messages The author shows why today's global food system produces just the opposite of what it promises The food produced under this regime is in fact exceedingly expensive Many of these costs will be paid for in other ways or by future generations and cheap food today may mean expensive food tomorrow By systematically assessing these costs the book delves into issues related but not limited to international development national security healthcare industrial meat production organic farming corporate responsibility government subsidies food aid and global commodity markets It is shown that exploding the myth of cheap food requires we have at our disposal a host of practices and policies

Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Popen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
