Coalition Diaries, 2012-2015 David Laws, 2017-09-14 Acclaimed as one of the sharpest political intellectuals of his generation David Laws saw his ministerial career nosedive before it had begun when after only seventeen days as Chief Secretary to the Treasury he was forced to resign when unintended breaches of parliamentary expenses rules came to light You can't keep a good man down however and he returned to government where he was also responsible for implementation of the coalition agreement and planning the Lib Dems strategy in the run up to the 2015 election David began writing a diary in March 2012 and continued writing it throughout his ministerial career and up to the 2015 election which devastated the Liberal Democrats in Parliament Frank acerbic sometimes shocking and often funny Coalition Diaries chronicles the historic Liberal Democrat Conservative coalition government offering extraordinary pen portraits of all the personalities involved some of whom were cast aside at the election or put to the knife after Brexit while others are active in today's government

Samuel Beckett's Critical Aesthetics Tim Lawrence, 2018-04-19 This book considers how Samuel Beckett's critical essays dialogues and reflections drew together longstanding philosophical discourses about the nature of representation and fostered crucial yet overlooked connections between these discourses and his fiction and poetry It also pays attention to Beckett's writing for little magazines in France from the 1930s to the 1950s before going on to consider how the style of Beckett's late prose recalls and develops figures and themes in his critical writing By providing a long overdue assessment of Beckett's work as a critic this study shows how Beckett developed a new aesthetic in knowing dialogue with ideas including phenomenology Kandinsky's theories of abstraction and avant garde movements such as Surrealism This book will be illuminating for students and researchers interested not just in Beckett but in literary modernism the avant garde European visual culture and philosophy

Lupieri, 2011-12-20 From the conquistadores in Central and South America to the Jesuits in China Edmondo Lupieri traces the consequences of European war and conquest for global cultural identities from the age of exploration to the present In the Name of God exposes the economic political and religious justifications and motivations behind the European conquests and uncovers some of the historical roots of genocide racism and just war Lupieri's animated and comprehensive historical sociological study masterfully weaves together a tapestry of ideas individuals and people groups linking them throughout to present day realities in often surprising ways Unflinchingly critical Lupieri describes how European indigenous encounters have shaped Christianity and the world irrevocably **The Living Age**, 1867 *Littell's Living Age*, 1867 **Embracing the Occupiers** Jeremy S. Block, 2009-03-13 This is the first book to examine how Fulbright scholars individuals almost certain to be movers and shakers in their own countries if they weren't already before coming to America from Iraq and Afghanistan view the U S interventions in their countries the war on terror the status of Islam and other pressing issues of our day As the author explains understanding the mindset of Afghans and Iraqis willing to live and

study in the occupying power is crucial to the conduct of America's war on terror and America's role in the post President Bush world. In this work Block looks in depth at a large representative sample of the Iraqi and Afghani Fulbright scholars in the United States providing information about their former lives in their home countries, their opposition to dictatorial Taliban and Saddam's rule, their accounts of how they wound up coming to America, their opinions about America both positive and negative, their views of jihadism and of the proper place for Islam in the political processes of their respective countries, and their expectations about what might await them when they return to their own countries. As such it will be an invaluable resource as the United States continues to rebuild Afghanistan and Iraq.

Neoliberalism as much a political project as an economic one is still pervasive and it continues to provide the general framework for politics and political imagination across most of the globe. The book brings together a group of scholars from different parts of the world looking at the impact of neoliberalism on societies. And as such it contributes as much to the critique and overcoming of this process as to its analysis. With its extensive coverage both geographically and thematically, the book will be of interest for students of the social sciences as well as for anyone making an effort to understand and change the world.

Is religion rooted in expressions? How are experiences and expressions related? The contributors to this international and interdisciplinary compilation explore the possibilities and the impossibilities of a hermeneutics of religion. Combining theology and philosophy with biblical, cultural, historical and literary studies, they examine how religious experiences and religious expressions have been entangled in the past and in the present. These entanglements call for interdisciplinary conversations in which those who study experiences and those who study expressions can learn from each other in order to carve out important and instructive spaces for the study of religion.
